### UNION EXCURSION.

The C. P. R. Employees and the Agricultural Society Will Picnic Together.

A committee of the Moose Jaw Agricultural Society and the representatives of the C.P.R. employees met last night to consider what arrangements could be made with a view to having a joint excursion and picnic to Indian Head or Qu'Appelle this year. After mature consideration it was unanimously decided that the two should join, and Indian Head was chosen as the place. The date has not yet been definitely settled, but it will likely be August 3rd. This was a wise decision, as it will enable our farmers and townspeople to pay a visit to that great object lesson of nature—the Experimental Farm. In fact this is the other attractions, too. At Qu'Appelle there will be a joint agricultural fair and an excellent programme of races and sports, and any one desiring to stop off may do so. Mr. Angus MacKay, of the Experimental Farm, has the matter at heart and this means that no pains will be spared by himself and his efficient staff to make the visitors welcome and their visit a profitable one. The Regina Agricultural Society is also co-operating and of course there will be a large number from that district attend. The C. P. R. have offered a rate of \$1.75 for the round trip from this place and proportionately low rates from intervening points. This is a reasonable rate, but we think, when the object of the excursion is considered, they should bring it down to the last notch, in order to allow those with large families to attend without any hardship. The joint committee unanimously passed a resolution making strong representations along this line and asking that the rate be placed at \$1.00. If this is granted we can assure the company that the reduction will be more than made up by the increase in attendance.

### HEAD NERVES

Are Disturbed When the Stomach Refuses to do its Work—Indigestion Upsets the Whole System and Makes Wrecks of More Hopeful Lives Than Any Other Complaint Under the Sun.

"For several years I have been a subject of severe nervous headaches, and last June I became absolutely prostrated from the trouble. I also became a martyr to indigestion. I was persuaded to try South American Nervine. I procured a bottle. My headaches were relieved almost immediately, and, in a remarkably short time, left me entirely. The remedy has toned up and built up my system wonderfully. James A. Bell, Beaverton." Sold by W. Bole.

### STRAYED.

Strayed from my ranch at Eye Brow Lake about two months ago one bay team of five-year-old horses. One has four white feet to knees, spot on forehead. The other has a few white hairs on one hind foot. Both have bell brand on right side of neck and both are mane docked. Information thankfully received. Any person returning them to the ranch or leaving them in Moose Jaw will be suitably rewarded. D. A. A. ROSS, Moose Jaw, Assa. 2211.

### MOOSE JAW WINS.

Our Baseball Boys Return Victorious, With a Score of 25 to 7 in Their Favor.

"Where are we at?"  
Says Medicine Hat.  
"Why at the bat."  
They knocked us flat.  
We can't play 'cat."  
That's where we're at."  
Says Medicine Hat.

The above is the despatch we received from the Medicine Hat baseball team on Wednesday afternoon, and tells the tale of the match played there on the "Glorious Twelfth," between a picked team of Moose Jaw ball players and the Medicine Hat boys.

President Hubbell left with his team on Monday morning's Soo train, which leaves here at 11:05 o'clock. They arrived at the Hat at 20 o'clock, and were welcomed by the home team. During the evening our boys were treated kindly, so kindly indeed that some were compelled to decline the many invitations proffered them. But as they were all tired they retired early and were up again next morning at 5 o'clock and had a good practice.

At 14:30 Umpire Jardine called "play ball," and Medicine Hat went to bat. The first innings they scored a big "goose egg," and to be courteous our boys followed suite. In the second innings both sides got down to business. Despite the careful playing of the visiting team, their opponents managed to score once, but when it came their turn they forgot all courtesy and dealt the Hat such a death-blow, by running up a score of ten runs, that they never recovered. In the third innings better play was exhibited by both teams, the Hat scoring two and the Jawites one. The fourth innings play was much the same as the second. Moose Jaw again batting the ball all over the field, scoring 8 runs. The Hat team also did good work, but only made 3 runs. When the Hat team went to bat for the fifth time their spirits were as high as ever, and notwithstanding the score against them they were still confident of winning the game. Robert's curves fooled them as badly in this innings as they did in the first. They only increased their score by one run. It was now Moose Jaw's turn, and our boys again gave an exhibition of their batting abilities and "froze" on to everything in sight, increasing their score by 8 runs.

Generous nature took pity on the Hat and put an end to play by a heavy rain storm. Umpires Jardine and Cumpston declared the game won by Moose Jaw by a score of 25 to 7. The following are the names of the players, with their position and record of runs:—

#### MEDICINE HAT.

F. D. Noble, 2b.	0	0	0	1	0-1
J. Hall, c.	0	0	0	0	0-0
E. Spade, p.	0	0	1	1	0-2
J. E. Oliver, ss.	0	0	1	0	0-1
A. Fiddler, 1b.	0	0	0	0	0-0
C. Long, r.f.	0	0	0	0	0-0
T. Chapman, 3b.	0	1	0	0	0-1
A. Snider, l.f.	0	0	0	0	0-0
C. Road, c.	0	0	1	0	0-1

#### MOOSE JAW.

W. Simington, c.	0	1	0	0	1-2
P. Clark, ss.	0	0	0	0	1-1
T. Mahoney, r.f.	0	1	0	1	0-2
W. J. Simington, 1b.	0	1	0	1	1-3
P. Walton, l.f.	0	2	0	1	1-4
R. McCartney, p.	0	2	0	1	1-4
W. Baxter, 3b.	0	1	0	1	1-3
J. Hyland, c.f.	0	1	1	1	1-4
A. Prosser, 2b.	0	1	0	1	1-2

Both sides were well pleased with the Umpires, whose decisions met with the approval of all the players and spectators as well.

Al Prosser put up a new hat for the first home run made by Moose Jaw. Judging from the number of three-base hits, it was evident that our boys were indeed after the "Hat," but the "imported pitcher from the Buffalo Lake settlement," as was expected, succeeded in making the first home run, and now wears "Charlie's" hat.

It takes Joe to hit curves, but when a "lobb" comes his way there's a few home runs and a search for the ball.

A. Fiddler, yardmaster at Camrose, and A. Snider, a brakeman from the same place, played a good game for the Hat team, while all our boys put up an equally good game, especially the battery, McCartney and Walt Simington. Our basemen and short stop also did excellent work when opportunity afforded, but our fielders did not get a chance to display their baseball abilities, except while at the bat.

Our boys returned home Wednesday morning and speak highly of the people of Medicine Hat. A return match will be played at Moose Jaw in the near future.

WAGHORN'S GUIDE TO TRAVEL, 50c (10c)

### AN IDEAL WEDDING.

The Nuptials of Mr. A. M. Fenwick and Miss Maggie Munns.

Forest Free Press: An ideal day for an ideal wedding. The social event of the season in our town took place yesterday (Wednesday) forenoon, at the home of Dr. and Mrs. Munns, when their eldest daughter, Maggie M., was united in marriage, by the Rev. Hector Currie, B.A., to A. M. Fenwick, M.A., Principal of the Public Schools at Moose Jaw, Assa. The room was beautifully decorated with flowers, the ceremony being performed under an arch of similar and roses. The bride, who was given away by her father, was attended by her sisters, Misses Len and Beattie Munns, and the bridegroom was supported by T. E. Prosser, B.A., Inspector of Public Schools, N.W.T., and W. R. Chester, of Sarnia. As the bridal party entered the room Mendelssohn's wedding march was beautifully rendered on the piano by Mrs. Dillon, of Forest. The bride was tastefully gowned in brocade silk with gold brocade trimmings, and the bridesmaids were attired in organdie muslin. The bouquets carried by the bridal party were of roses and carnations. After the ceremony the company, numbering fifty, sat down to a sumptuous wedding breakfast, and at the conclusion of the repast Rev. Mr. Currie, in a felicitous speech, proposed the health of the bride, and referred to the great loss her removal would be to the community, both in social and church circles, to which Mr. Fenwick gracefully responded. The bridegroom's present to the bride was a Gerrard-Heintzman piano, and to the bridesmaids rings set with sapphires and pearls. Guests were present from Moose Jaw, Medicine Hat, Deloraine, Sarnia, Parkhill, Forest and Thorndale. The happy couple left on the afternoon express for Toronto, en route to Kingston, Montreal and Quebec, prior to going to their home at Moose Jaw. The Free Press joins in congratulations.

### A FALSE REPORT.

Mr. T. B. Baker Denies That He Announced Himself a Candidate for Legislative Honors.

The Regina correspondent to the Indian Head Vidette says:—  
"Mr. T. B. Baker, of Moose Jaw, passed through here a few days ago. He had been north making arrangements for the building of three new elevators on the Prince Albert line. These elevators will be his own property. While here he made the definite announcement that he was in the field for Legislative honors and would oppose Hon. Jas. H. Ross in Moose Jaw. The oppositionists are consequently in very high spirits these days."

On noticing the above a Times reporter was despatched to interview Mr. Baker, who, upon reading the above, was quite surprised. On being asked as to its correctness, he acknowledged that the reference to his visit north was, in the main, the truth; but as regards the definite announcement that he was a candidate for legislative honors, there was no truth in it and he could not remember having made any such statement. Being questioned if it was his intention to offer as a candidate, he said that at present he was made on the subject, but there was yet a session to be held before the election and he could not say what turn events would take. The elections would be held in October and as that was a busy month for him it was questionable whether or not he would sacrifice his business to enter the political arena, but if he did it would be on his own personality, and the urgent requests he had received from many in the district warranted him in feeling sure of a hearty support. He had been importuned by a large number from outside the district, but he thought if they would tend to their own business it would keep them busy. Moose Jaw could look after itself.

There is no joy in this world equal to the happiness of motherhood. A woman's health is her dearest possession. Good looks, good times, happiness, love and its continuance, depend on her health. Almost all of the sickness of women is traceable directly or indirectly to some derangement of the system distinctly feminine. Troubles of this kind are often neglected because a very natural and proper modesty keeps women away from physicians, whose assistance and examination and local treatment is generally as useless as it is common. Dr. Pierce's Favorite Prescription will do more for them than 36 doctors in 36. It will do more than the hundredth doctor can unless he prescribes it. It is a prescription of Dr. R. V. Pierce, who for 30 years has been chief consulting physician of the World's Dispensary and Invalid's Hotel, at Buffalo, N.Y.

# TORAL DETERMINED

## THE SPANISH GENERAL AGAIN REFUSES TO SURRENDER

General Shafter Postpones a Renewal of Hostilities Until Randolph's Batteries are Placed in Position—Rain Falls in Torrents Flooding the Trenches—The Spaniards Active in Building Defences and Dodging Shells

Before Santiago, via Playa del Este, July 12.—This morning General Toral sent out a reply to General Shafter's second demand for the unconditional surrender of Santiago, made by letter yesterday afternoon. In his reply General Toral referred to his refusal to accede to the United States demand, made on Sunday, and again reiterated his determination to resist. Notwithstanding this the United States batteries did not open fire this morning, and the renewal of the bombardment will probably be postponed until tomorrow, Wednesday, when it is hoped that all of General Randolph's batteries will be in position. The siege guns landed yesterday will also be brought up as soon as possible.

Torrents of rain fell last night, drowning out the boys in the trenches and making the roads almost impassable. This may delay the batteries and siege guns.

The Cubans, under General Garcia, took Calanera without opposition on Monday night, and have entrenched on either side of the road. The United States are now in position to strike the enemy on the left flank and make the Spanish entrenchments north of the city useless. General Toral realizing this weakness of his flank, has been busy during the existence of the truce in doubling back and fixing his guns in the direction from which he is threatened.

Yesterday the Capron and Hinds batteries on the right started in firing the enemy's emplacements for a "palm" battery, as it is called, and in plunging shells into several block-houses on salients, but the shots directed at the Spaniards did not appear to have much effect. The Spaniards were rapidly broken directly over the trenches, yet in five minutes the trenches at every point of explosion would be alive with the enemy. They would watch for the flash of our guns and drop before the shells exploded.

## BIG GUN PRACTICE

### What the United States Batteries Did at Santiago—Two Men Killed—Several Wounded

Before Santiago de Cuba, July 11, via Port Antonio and Kingston, Jamaica, July 12, 3 p. m.—When the fire opened from the United States batteries after the conclusion of the armistice the United States troops were in a hard, level position. Capron's and Hinds' batteries were posted on the heights on the left of the line and in the rear of Bates' line. The Hotchkiss, Gatling and dynamite guns occupied a crest on the right centre and on the extreme right Bates' and Grimes' batteries were posted in the centre of Lawton's division. The United States right was strengthened by a brigade of Kent's division, the 6th and 16th regulars and the 71st New York, which were pushed to the westward until, with Garcia's line, it formed an arc reaching within a quarter of a mile of Calanera, which skirts the bay and flats. The way road by which General Toral could escape was thus commanded. Small detached bodies of Spaniards have been observed skipping out of town westward early in the morning, including one squadron of cavalry. A movement was made to cut off their retreat, and a land bombardment began. A shot from Grimes' battery was followed by one of Capron's gun on the left and in the right centre, the Gatling and Hotchkiss batteries opened fire. For the first ten minutes the firing was quite general, the Spaniards replying spiritedly, but the rifle fire on both sides soon waned, and from 5 o'clock until 6:30, when the action ceased, the fighting was confined almost exclusively to artillery. The United States batteries soon got the range and poured shells into the Spanish entrenchments, cutting down the brush and felling the trees. The Spaniards were soon forced to evacuate the block-houses. A Spanish battery on the left of the town engaged by Capron's battery, fired only a few shots, but a battery on the right fired spiritedly until a gun exploded directly in front of it, tearing up two trees and dismounting a gun. It was the last shot of the afternoon, and was greeted with cheers. Two men in General Kent's division were killed by a shell and several were wounded.

A Spanish deserter came to the United States lines this afternoon for food. He said: "The Spaniards are as good fighters as the Americans, and if we had food and cartridges in abundance we would fight forever." General Kent recommends the following officers of his division for gallantry under fire: Major Sharp, Major Phil, Captain, Major Johnson, Lieutenant, Captain, Lieutenant, and Volunteer Aide-de-Camp Monroe, who was wounded, and will be recommended for a commission.

## SHELLING SANTIAGO.

### United States Warships Create Immense Havoc.

Siboney, July 11, 7 p. m., via Kingston, Jamaica, July 12, 11:30 a. m.—A concerted movement has been made by the United States army and navy against the city of Santiago de Cuba during the past twenty-four hours, which the United States officers here believe will result in the almost immediate fall of the city. The fleet lying off Aguadores, three miles east of Morro Castle, commenced the bombardment of Santiago on Sunday afternoon and continued it this morning. Notwithstanding that the United States ships had to fire at an extreme elevation, and although the range was nearly five miles, the aim was so accurate that many of the shells fell into the city and set fire to it in several places. One shell struck St. Michael's church, in which was a quantity of powder and ammunition, and blew it to pieces. During the bombardment from sea, the army expended its lines, and drew in closer to the city, so that at noon to-day every road and trail leading into the city was guarded, and the escape of the Spanish soldiers seemed impossible. The only way they can get from the city is to ferry across the bay to the western side of the harbor, and even then they could not get into the interior without encountering the United States troops. During the time the warships were bombarding Santiago this morning, the batteries of artillery on the hills facing the city shelled the Spanish entrenchments, and received but a light response. The United States sharpshooters, who were in a deadly fire with the Spaniards, fell back to their last entrenchments, offering but little resistance. The United States troops suffered no loss.

## SPANISH AFFAIRS.

### A New Loan—Denial of Peace Reports—The Cabinet

Madrid, July 12, via Bayonne, France, July 12.—The government is issued to-day a loan of 500,000,000 pesetas in treasury bonds, at 5 per cent, of which amount the Bank of Spain takes 300,000,000 pesetas.

Madrid, July 12, 9 p. m.—After the cabinet council, the ministers asserted that Santiago de Cuba had again refused the United States demand for surrender. Duke Almodovar de Rio, minister of foreign affairs, said there was nothing to justify the reports regarding a conclusion of peace.

London, July 12.—The Madrid correspondent of the Times says: "The crisis hangs fire. The ministers still meet in council. The difficulties of retirement are even greater than the difficulties of remaining in office."

## PEACE OR WAR.

### Spanish Cabinet Resigned—Public Opinion Much Divided.

Madrid, July 12, via Bayonne, France, July 12.—All the Spanish ministers have handed their resignations to the premier, who has forwarded them to the queen regent. But the difficulty is that nobody is willing to accept the premiership. Marshal Alvear de Campos would accept it, but he does not command a majority in the chamber of deputies. While the military party urges war, the large proportion of the civil population is desirous of peace. It is pointed out, however, that if the United States insist upon the creation of Porto Rico and the Philippine Islands, the general feeling will be in favor of a continuance of the hostilities, many Spaniards believing that the situation in Cuba will enable Spain to prolong the struggle.

## THE POSSIBILITY OF PEACE.

### Spain Will Accept Conditions if They Only Imply the Loss of Cuba.

Madrid, July 12.—9 a. m.—The possibility of peace with the United States is being widely discussed in the newspapers and by the public. Conservative papers declare that Spain is preparing to accept peace provided it implies only the loss of Cuba. But they add, Spain would prefer war to a treaty if the United States claims Porto Rico, the Philippine Islands or an immense indemnity which would be impossible for Spain to pay.

El Correspondencia asserts that Gen. Correa, minister of war, does not disagree with the other cabinet ministers so seriously as is generally supposed. In view of the gravity of the Cuban situation, it is possible that he will no longer oppose peace, provided the conditions are not too onerous.

The public connect the recent conference between Duke Almodovar de Rio, the Spanish minister for foreign affairs, and the French ambassador, M. Pateux, with the report that the two French ambassadors at Washington, M. Gambon, has been instructed to ascertain the highest conditions upon which peace is obtainable.

## CERVERA AND SCHLEY.

### The Former Speaks of the Destruction of His Fleet—Words of Cheer.

Off Santiago de Cuba, July 11, via Kingston, Jamaica, July 12.—On the day of Admiral Cervera's departure for the United States as a prisoner of war, the following conversation passed between the Spanish admiral and Commodore Schley, regarding the destruction of the Spanish fleet: "If we could have passed the Brooklyn and I believe we could," said Admiral Cervera, to Commodore Schley in the two French ambassador at Washington, M. Gambon, has been instructed to ascertain the highest conditions upon which peace is obtainable.

Commodore Schley put out his hand and rested it on Admiral Cervera's shoulder. He speaks perfect Spanish, and he said, "Admiral, you are a brave man and commander. As you did the face of a superior force, but an exemplification of that bravery. Your country can but do you honor."

## THE FOURTH EXPEDITION.

### Of U. S. Troops is Expected to Leave on Friday Week for Manila.

San Francisco, July 12.—The fourth expedition to the Philippines numbers 4,769. Gen. Oates expects that the steamers Rio Janeiro, Pennsylvania and St. Paul will be ready to sail with the troops on Friday of next week. He does not expect to get any more troops away until the return from Manila of the steamships City of Peking, City of Sydney and Australia. He thinks that these vessels will be back to this port about August third.

## CANADIAN NEWS.

### Hamilton's new public swimming baths were opened on Saturday.

The Mather Farmers' Elevator Co. has been incorporated. The company will erect an elevator at Mather Siding.

A prohibition convention for the Northwest Territories has been called to meet at Regina on Tuesday, July 19th.

The four year old stepson of Wesley Peten, Thamesville, ran beneath a binder, and the knives amputated one of his legs below the knee.

Mr. Neil Keith, contractor, has begun work on the extension of the C. P. R. Pipestone branch westward from Reston towards Moose mountain.

The case of Heriell, convicted of selling liquor at Neepawa without a license, has been quashed by the supreme court. He was fined \$400 by the local justice.

A woman whose name the police refuse to divulge has been arrested in Montreal in connection with the \$3,000 robbery of the Dominion bank at Nanapan several months ago. The woman had some of the stolen bills in her possession.

A check for \$400 has been received at the provincial treasurer's department, Winnipeg, from Magistrate Fieldhouse, Neepawa. It was the fine paid by Warren Taylor, Neepawa, under a conviction of selling liquor illegally. It was Taylor's second offence.

The condition of the crop in the Dauphin country is very good. Application has been received at the head office for permission to put up a big elevator with a capacity of 125,000 bushels. Shipments this year are expected to be 100 per cent. larger than those of last year.

Austin Smith, son of Mrs. Jane Smith, St. Catharins, stole a horse from Vordard's farm and went to his aunt's place in Pelham at one o'clock on Saturday morning. Soon after the straw stack beside Mrs. Smith's (his aunt's) barn was discovered on fire, and the boy was arrested on a charge of horse stealing and arson.

The building in Colborne, owned by the A. F. Peterson estate and occupied by the G. N. W. telegraphs. A. J. Kemp's tin shop, Drs. Malroy and Knight, J. A. Smith, photographer, S. H. Scripture, agricultural implements, and Chas. McGuir, butcher, and the large Brunswick hotel stable were burned, and the Presbyterian church is damaged by fire Saturday morning. The total loss will be about \$20,000. The buildings were insured.

**B. C. ELECTIONS.**  
The Provincial Election Held Yesterday Still in Doubt.

Victoria, B.C., July 10.—Provincial elections held yesterday. Of 38 seats 23 are definitely decided, 13 government and 10 opposition. Of the remaining fifteen, with incomplete returns, seven will probably go opposition and six government, with Cassiar, where an election is not yet ordered, probably certain to return two government, which would give the government a majority of four, certainly no more. The opposition claim that the government majority cannot exceed two. G. B. Martin, chief commissioner of lands and works, was defeated by a small majority by a young newspaper man, Dean, of Kamloops. It is expected that Col. Baker, provincial secretary, will meet the same fate at the hands of another newspaper man, Baillie.

**Final Result Still Unknown.**  
Vancouver, July 10.—Few additional returns of the provincial elections were received today, many places being distant from the telegraph. East Lillooet elects an opposition candidate, making seventeen opposition and fifteen government seats of which complete returns are received. Besides the two seats in Cassiar in which no election was held, there are four seats still doubtful. In any case the government will only be returned by a very small majority, while the prospects now are that the result will be equal. It will probably be Tuesday before the final result is known.

## SENTENCED TO HANG.

### Stickie Murderer Will Swing in July at Nanaimo.

Clans, the murderer of Hendrickson and Burns, who has been on trial at the special sittings at Nanaimo, B. C., having been found guilty, was today sentenced to be hanged on August 2 at Nanaimo. The prisoner, after sentence, said with tears rolling down his cheeks and bowed head, in a trembling voice: "I don't understand well. I don't know what to say. I am very sorry I put the bodies under the ice. I did not know what I was doing."

The plea put forward by the defence was Hendrickson killed Burns and that in self-defence Clans shot Hendrickson. The court was disturbed by the wife of the prisoner, who occupied a seat in the gallery. When the verdict of guilty was announced it was necessary for the police to watch her, and several other ladies were weeping.

## TESLIN CITY.

### Growth of the New Town on the Trail to the Yukon.

Recent arrivals from Teslin Lake say that several hundred people are trying to reach the lake from Glenora. They were all hurrying on to Teslin, pushing, pulling, crowding, and all happy and working hard. They were taking in their outfits on wheelbarrows, on oxen, horses, on their backs, in baby carriages, with dogs—any old way. They were all making good

## WINNIPEG MARKETS.

The following review is compiled from the latest and most reliable market reports, and is up to date:

The state of wheat trade in this market is still one of stagnation; there is no demand and scarcely sufficient business doing to determine values. A few cars have changed hands during the week at 65c for No. 1 hard in store at Fort William. Yesterday probably 90c could have been got, but these prices are still several cents per bushel above export value.

Flour—Market is steady at the same quotations as a week ago. We quote: Patent, \$2.55; strong bakers, \$2.45; second bakers, \$2.35; XXX, \$1.25. Millfeed—Demand keeps good. Bran, \$11.50; shorts, \$13.50 per ton in bulk, large lots, \$1 per ton less.

Ground Feed—Quoted at \$28 to \$31 per ton as to quality for oats. Ground corn is held at \$18 to \$19 per ton. A mixed corn feed is quoted at \$23 to \$24 per ton. Corn—Sales have been made at 44c on track here, per bu. of 55 lbs.

Barley—Nominal at 45 to 50c per bu. of 45 lbs.

Oats—40c to 47c for cars here, per bushel of 34 pounds.

Butter—Creamery—Market is easier, owing to slow shipping demand for British Columbia points. This week dealers have been paying 15c to 16c for cream for good fresh goods. Dairy—Market is about the same as a week ago, and values are the same. Buyers have been paying 10c to 11c at country points for round lots of good fresh dairy, as to quality. The tendency is easier.

Cheese—Fairly steady; 7c to factories. Eggs—Steady and firm. Dealers are still paying 11c net for receipts.

Vegetables—Market holds steady. We quote: dressed, 7c to 7 1/2c; beef, 6 1/2c; mutton, 8c to 9c; as to quality, veal, 7c to 8c; lamb, \$2.50 to \$3 each.

Poultry—Live fowls, per pair, 8c to 7c; spring chickens, 25c to 30c per pair; turkeys, 10c per lb live weight, or 15c per lb dressed.

Vegetables—Potatoes, 3c to 3 1/2c per bushel; new cabbage, 8c per lb; turnips, 20c to 25c per bu. Green stuff at 12c for onions, lettuce and radishes, per dozen bunches; rutabaga 12c per dozen bunches; new carrots and beets, 20c to 25c per dozen bunches; green peas, 6c per lb; cucumbers, 7c per dozen.

Vegetables—No. 1, 7c; kip, 7c to 7 1/2c; calf, 7c to 8c; deacon skin, 15c to 20c; sheep, 15c to 20c; as to size and quantity of wool; horse hides, 75c to \$1.75 each; colts, 25c each.

Wool—Good to choice unwashed Manitoba fleece, 8c to 9c.

Tallow—No. 1, 3 1/2c; No. 2, 2 1/2c to 3c. Seneca Root—Nominal, 12c to 15c.

Wood—Tamarac, \$5 to \$5.50; Jack Pine, \$4.25 to \$5; oak, \$3.25; poplar, \$3.50 to \$4.

Hay—Scarce this week. There was no baled hay in the city yesterday, but some cars were due. If the weather keeps fine, plenty of new hay will be offered soon.

Cattle—Grassers, 3c; stocker cattle are easier, from \$2.75 to \$2.85 per 100 lbs was paid this week, which shows a lower market for shipment south.

Sheep—Quiet this week at 3 1/2c to 4c off cars here.

Hogs—Market steady at 5c for the most desirable. Receipts fairly liberal. Choice bacon hogs, weighing 150 to 250 lbs, 7c per lb, 25c to 30c lb, \$4.25 to \$4.75; heavy hogs, over 300 lbs, \$3 to \$4, as to quality, live weight.

## CANADIAN NEWS.

### William Ogilvie has been appointed administrator of Yukon to succeed Major Walsh.

On the morning of July 8, a water-pump at Steeleville, Mo., almost swept away the town, and drowned thirteen persons.

Lieut. Perry has arrived at Sydney, B.C., on his way to the Arctic regions. He says he is confident that he will reach the north pole this time, but he may consume four years in doing it.

The Kitchener County State land, of Hallock, Minn., will not be present at the Winnipeg exhibition, owing to their having received the offer of Manager Henrich to take to make the necessary arrangements.

Several men have deserted from the warships at Victoria, B.C. Gunner Blakey, the best marksman on the flagship Imperieuse, is supposed to have made his way to the States, with a view of entering the United States navy to fight for the Stars and Stripes.

Faith Fenton and the Victorian nurses were passed on the Glenora-Teslin trail by a recent arrival here, who says they were processing well. They had but one horse, each taking her turn in the saddle, the others trudging alongside. The Canadian troops are also making good headway.

The gas supply was shut off in Winnipeg on Friday owing to a breakage at the works. The trouble was started by the recent rains which caused the main to settle. This severed the connection with the drip pipe and consequently the main filled up with water. The non-supply of gas meant a great deal to all the evening newspapers. The type-setting machines were useless, as it is necessary to heat the metal by gas in these machines before they can be used. All type used on the city papers was set by hand at the old fashioned way.

Antoine Day, a prominent rancher, Battleford, N.W.T., 25 years of age, was drowned on July 7, while crossing cattle over the Saskatchewan river, two miles above this town. On entering the river his horse missed its footing and probably struck him as although one of his men threw him a rope, he made little or no effort to save himself, and almost immediately disappeared. A number of parties have been on the river ever since the accident, but up to the present the body has not been recovered. Mr. Day was a brother of the well-known buyer for Gordon & Ironside and came to the west six years ago from the province of Quebec.

The Rhine flows at three times the rate of Thames.

## WAS READY TO FIGHT.

Best Wanted an Understanding Before Going to the War.

"I've got to go with my regiment, Millie," said the impetuous youth. "That's all right now. I'm not afraid of war, and I am willing to go, but—"

"Yes," she said. "But there are other fellows that ought to go."

"To be sure. You ought not to have to fight alone."

"You know what I mean, Millie. There's Jim Hagginton."

"What has Mr. Hagginton got to do with your going to war?"

"Nothing, except that he doesn't go."

"Well!"

Roy Roughrider rose and stood before her.

"Millie Swackhammer," he said, in a deep, rich, David Ward Wood voice, "when a young man turns his back on all that is dear to him and goes forth at the call of his country to fight its enemies, to undergo all the hardships of camp life, to undergo all the perils of a campaign in a tropical country, hunger, exposure, wasting fevers, venomous insects, deadly reptiles, madmen, earthquakes and a cross, though dead, must of a Jim Hagginton is staying home and making love to his girl. I tell you it's pretty degenerate stuff."

"What is it you want, Roy?" asked the young woman, much moved by his fervid eloquence.

"I want you to promise me not to permit that wall-eyed pike of a Jim Hagginton to come sneaking around the house while I am far away, risking my life for my country and feeding his cannibal gods."

"Roy," impulsively spoke the maiden, "do you think I could ever care for that empty-headed idiot so long as you long as—why, Roy?"—and she pretended to busy herself in examining the fastenings of the top button of his coat.

"I think more of a pair of your old boots than I do of the whole Hagginton family!"

"My angel!" rapturously exclaimed the young man, clasping her to his heart. "I will send a pair of my old boots around tomorrow!"—Chicago Tribune.

**A Difference.**  
Old Moneygrub—What chance has a man of 50 to marry?

Pretty Party—Fifty what—years or millions?—New York Journal.

**My Old Man.**  
My old man—he can't go to sea. He isn't so well, as he'll never be. He places a stone with the bones as he goes to fight the fire in the morning.

An he just can't march with that leg of his. How it all aches up with the rheumatism. As his place is here, what the blasted is. He'll fight the fire in the morning.

Their's lots 'ides him for to go an night. For he's fond of peace on his pipe at night. An he don't do well when he's out of his nest. So he'll fight the fire in the morning.

**Where Ready Money Is Scarce.**  
In the British settlement in the great Chinese city of Shanghai ready money is practically unknown. After you have had lunch at a restaurant you calmly get up and walk out without a thought of payment in cash. Some time later in the day a coolie arrives at your residence with a tiny slip of paper—a "chit," as they call it—simply a memorandum of the amount. You get a share at your barber's. The same system is carried out. You purchase a newspaper or a buttonhole bouquet, a "chit" is the result. The very shoeblack does not ask for coppers, but brings his bill at the end of the month.—London Answers.

**The Longest Love Letter.**  
Perhaps the longest love letter in the world is one written by a certain courtier in the time of Queen Elizabeth to his ladylove on the eve of her marriage. It occupied 400 sheets of crumpled writing, the number of words being something like 48,000.

**A Contract Is Exploited.**  
"How did Bluebeard get into the way of using such violent language?"

"I believe he was once engaged to some mining operations."

"Ah, I see! Camp life and that sort of thing."

"No, He specialized in stocks."—Washington Star.

**Something For Nothing.**  
Interviewer—Have you any idea whether the farmer will raise anything from those government seeds you sent out?

Statesman—No, but I know what he will raise if he should be introduced.—Cincinnati Enquirer.

**She Wanted a Home.**  
Mrs. Tespert—Some say that she married Mr. Hagginton for a home.

Mr. Tespert—He was the right sort of a fellow to marry them. He lives in a \$500,000 house on Fifth avenue and has a fine cottage at Newport.—New York Journal.

**As to the Cook.**  
He—She knows it will be very inconvenient for us if she leaves now. Do you think she appreciates the situation?

She—Oh, she told me she could get a better situation any time.—Detroit Life.

**Beneath of a King's Fanny.**  
Not long ago his majesty of Siam gave an Italian (for painting one of his wives from a photograph) "the grand cross of the Siamese crown." It is a rather large order. "This cross," said his majesty graciously, "will enable you to marry 13 wives. It is a distinction I seldom confer, so I hope you will make good use of it."—Siam Observer.

**What He Said.**  
Little Girl (to lady visitor)—Please, Miss Javert, let me see your ring.

Miss Javert (impressed)—Why, my dear Little Girl—Why, ma, said you'd go to a tongue.—London Sketch.

# THE MOOSE JAW TIMES.

MOOSE JAW, N.W.T.

## STEAMER SUNK.

CROMARTYSHIRE SINKS LA BOURGOGNE DURING A FOG.

Off Sable Island, and Only Two Hundred Saved of the Eight Hundred on Board.

One Woman Saved.

Halifax, July 6.—The British iron ship "Cromartyshe" was towed in here this morning by the Allan liner "Greenian" with her bow torn away by a collision, sixty miles south of Sable Island with the French steamer "La Bourgogne," which went down ten minutes later. Of the 800 passengers and crew on board only 200 were saved. One woman was saved by her husband. The captain and other deck officers went down with the ship. The "Cromartyshe" laid to and picked up the 200 passengers and crew who were rescued, transshipping them to the "Greenian," which came along at that hour.

The steamer "La Bourgogne" belonged to the French line and was built in 1886, at Toulon, France, by La Societe des Forges. She was of 4,171 tons net displacement, and had 9,000 indicated horse power. She was 508 feet long, 52 feet beam and 28 feet in depth. Her commander was Le Bonnet.

### Fire at Toronto.

Toronto, July 7.—Shortly after midnight a fire started in New Haverhill Hall, school building, on Jarvis street, and \$7,000 damage was done.

### Inspecting the Cristobal Colon.

The United States auxiliary cruiser Harvard has sailed for Portsmouth, N. H., with the balance of the prisoners. The total is now 1,750. A board of officers today is inspecting the Cristobal Colon, and it is hoped that she may be saved. Naval Constructor Holson is on board the Spanish cruiser and is about to value the Infanta Marie Teresa. The remains of the Vizcaya and Almirante Oquendo are the worst wrecks.

### BUSINESS IMPROVING.

Collections Good at Toronto and Winnipeg—Maritime Lumber Trade.

R. G. Dun & Co.'s weekly review will say tomorrow concerning Canadian trade: There is nothing particularly encouraging in the reports from the Canadian points this week, although business seems to be going fairly well in the main, with some hindrance on account of the lumber and shipping business. At St. John it is noted that all the mills are running, and freight have declined with reports from British markets more favorable. The grocery trade is very moderate, being affected by the decline in staples. There is very fair demand for building materials, but orders for dry goods are light. Trade is light as usual at this season at Halifax in the lumbering and fishing districts, and collections are hardly up to the average. Wholesale trade at Montreal is of a quiet mid-summer character, though full orders for dry goods come in well, and with increased demand for sugars and teas, while heavy metals, oils, paints and cement are somewhat duller. Hides have declined one and a half cent, but leather is still firm. Hamilton reports business active in all lines, with a promising outlook.

Concerning Canadian trade, Bradstreet's review tomorrow will say: Midsummer quiet is a feature of Canadian trade and less activity is naturally noted than during the month of June; Toronto reports large imports of continental manufacturers in the effort to anticipate the coming into effect of the new preference duty, which favors British goods. Talk of a retaliatory duty by Germany is already heard and it is feared that the grain trade may suffer somewhat, now that the usual outlet to the United States has been closed, wool is duller than for many years; considerable is hoped for from the coming trade conferences between the United States and Canada. The crop outlook is excellent, except in some portions of Manitoba where rain is needed, but the yield of the province as a whole will be much in excess of last year. Montreal reports that business is confined largely to sorting up orders, while the collections remain satisfactory. Lumber is active on British account at St. John, N.B., but business with the U. S. is limited. Victoria reports business improved in the interior, but the outfitting trade is dull.

### Hawaii's Annexation.

San Francisco, July 10.—The annexation of the Hawaiian Islands to the United States has given the American registry fifty-three vessels. Of these 24 are steamers, 4 full-rigged ships, 9 barks and 17 schooners. Most of the steamers are now engaged in inter-island trade.

### Freeman Halstead's Imprisonment.

London, July 11.—The parliamentary secretary for the foreign office, Hon. George L. Curzon, replying in the house of commons today to a question on the subject of the arrest of the Canadian war correspondent, Freeman Halstead, who was arrested at Porto Rico and sentenced to nine years' imprisonment for taking photographs of the fortifications at that place, said that recent reports showed the condition of Halstead's imprisonment had been altered, as they were threatened to seriously affect his health. The British ambassador at Madrid, Sir Henry Drummond Wolff, has therefore been instructed to make representation to Spain, with the view of securing more humane treatment for the prisoner, and he had expressed the hope that the latter's sentence of nine years' imprisonment would eventually be mitigated.

# NEWS OF THE DOMINION.

New Conservative Paper at Napinka—Fire at Berlin—Boot Store Burglarized—Horse Collides With a Tandem.

A new Conservative paper has been launched in the province at Napinka. It will be known as the Napinka Gazette. Mr. Frank Irish is the publisher.

The building occupied by the Berlin Brush Co. and Oelschlaeger Bros., foundrymen at Berlin, was destroyed by fire Monday, together with a large frame building adjoining. The loss is estimated at \$20,000, partially covered by insurance.

Two Italian fruit dealers, of Buffalo, who were on the Burgogine, have arrived at Toronto. They corroborate the story of the crew's brutal conduct. As soon as the disaster occurred the sailors thronged on the deck and fastened the hatchway to prevent the passengers gaining the deck.

Sunday afternoon two young men named Plante and Moore were driving south on Main street, Winnipeg. As they were turning off on to Notre Dame east they ran into a bicycle tandem coming north. The riders were thrown to the ground and Geo. Middlemiss, who occupied the front saddle in their tandem got under the feet of the horse and was badly bruised about the face and hips. His companion escaped with a shaking up and a bruised thumb.

Finkelstein's boot and shoe store, Main street south, Winnipeg, was broken into Sunday night, and a quantity of boots taken away. The burglars broke a pane of glass in window at back of the store, and had little difficulty in getting possession of several pairs of boots. In connection with this offence, Geo. Smith, John Santry, Jas. Devine and Philemon Broegman were arrested, and will be charged with shop-breaking and theft. The police have recovered several pairs of the stolen boots.

### The Yukon Overflows.

San Francisco, July 11.—Twenty miners from Yukon, Placer and Manook, Circle City and Dawson City arrived today on the schooner Mattie Phillips, from St. Michaels. The returning prospectors bring \$70,000. The passengers from Dawson are confident that the output from Dawson will run over \$25,000,000. Manook will produce not less than \$30,000,000. The Yukon river is said to be higher than known for years, it overflowed its banks at Manook, where a number of miners were washed away by flood.

### Ontario Frozen.

Toronto, July 11.—The damage by the frost last night was pretty general throughout Ontario. Ice formed an eight of an inch thick, and barley was touched. The other grains escaped pretty well, but potatoes and other growing vegetables and all late fruits were seriously damaged. Full reports of the loss not yet received.

### Damaging Hailstorm.

Neepawa, July 11.—A terrific hail storm passed over this district. The storm started at eighteen o'clock and lasted for about half an hour. The hail was as large as hen's eggs and rattled down at an enormous rate, smashing nearly all the windows in the north side of buildings and many on the west side. At the M. & N. W. station forty lights were demolished. The storm seems to have extended for ten miles north, and no doubt crops are damaged to a great extent. No farmers have been in to report yet.

### Senor Du Bose's Departure.

Montreal, July 11.—Senor Du Bose will sail from Montreal tomorrow morning for Liverpool. He has given for publication the correspondence with Sir Wilfrid Laurier regarding his presence in this country. It is apparent that the premier intimated that Senor Du Bose ought to leave here and that the Spaniard replied that he had done nothing wrong and could not be expelled, but that he intended to go away.

### Chinese Riots.

Shanghai, July 11.—A dispatch from Chung King, dated July 8, says the Protestant and Catholic missions at Shun Ching Fu have been attacked by rioters. Yuen Chong and adjacent cities are very much disturbed. A French priest has been captured by brigands and at ransom of 10,000 taels is demanded for his release. Several natives have been killed and much property destroyed. The situation is critical. The consuls at Chung King are on the alert.

## SCROFULA.

"My little boy, aged 7 years and 15 months, was a victim of Scrofula on the face, which all the doctors said was incurable. To tell the truth he was so bad that I could not bear to look at him. At last I tried a bottle of Burdock Blood Bitters, and before it was half used he was gaining, and by the time he had cured, I cannot say too much in recommendation of B.B.B. to all who suffer as he did." JOSEPH P. LABELLE, Maniwake P.O., Que.

There can be no question about it. Burdock Blood Bitters has no equal for the cure of Sores and Ulcers of the most chronic and malignant nature. Through its powerful blood purifying properties, it gets at the source of disease and completely eradicates it from the system.

## BURDOCK BLOOD BITTERS.

# Fires in the United States.

Pittsburg, July 10.—Fire tonight, which originated in a stable in the rear of the World's theatre, on Federal street, destroyed the theatre, and from there rapidly communicated to the adjoining buildings. The Boyle block was soon in ruins, entailing a loss of \$175,000. The insurance will probably reach two-thirds of the cost.

Chicago, July 10.—Fire destroyed the plant of the Western Starch Manufacturers' association at West Hammond today. The buildings covered seventeen acres of ground, and had a capacity of 100,000 pounds of starch a day. Loss, \$250,000; well insured.

St. Joseph, Mo., July 10.—The Hotel St. Joseph was destroyed by fire this morning. Of the 400 guests and employees in the building all escaped except L. B. Benson, of Logansport, Ind., who lost his life while trying to save the office books. Loss, \$130,000.

Philadelphia, July 10.—Halton and Shoemaker's five-story brick factory building at Boone and Diamond streets was entirely destroyed by fire today. Loss about \$10,000; fully insured.

Cleveland, July 9.—Fire broke out shortly after noon today in the five-story brick building occupied by the Britton Printing company on Erie street. The flames spread so quickly that a number of employees were shut off from escape by the stairway and elevator, and jumped from the windows of the third, fourth and fifth floors. It is reported that several were killed or fatally wounded.

### Guillemain to Hang Sept. 20.

St. Hyacinthe, July 11.—John Baptiste Guillemain, found guilty on Saturday evening of the murder of his uncle, J. B. Laplante, at St. Lenoire last October, was today sentenced to hang on September 20. Judge Tellier refused two motions for appeal on questions of law.

### Chinese Disorders.

Pekin, July 11.—Edwin H. Conger, envoy-extraordinary and minister plenipotentiary of the United States to China, has presented his credentials to the Emperor.

The British gunboat Algerian has gone to Chin Kiang, on the Yang Tse centre of the disturbances in connection with the rebellion, which recently broke out in the province of Kiang Si. Sir Charles McDonald, British minister, insists upon the immediate restoration of order, as the natives are impeding business.

### The Britisher Ready.

Vancouver, July 10.—The privateer story sent out from Victoria seems to be an effort of some picturesque imagination. Capt. Olaf Westerlund, who, under the wrong name of Westlund, is a Vancouver pilot. He was seen this morning, and said that he had never seen Consul Smith on the subject, and had never had an offer to go north to join a privateer. The yarn seems to have been made out of whole cloth. Nevertheless the British cruiser Amphion has gone north to provide against any possible trouble.

### Nest of Counterfeiters.

Montreal, July 11.—The arrest here of Pietro Cappello, the New York murderer, has led to the breaking up of the biggest gang of counterfeiters which ever operated in Montreal. There are now under arrest in connection with this conspiracy, four persons beside Cappello. Salvatore Natale alias Jim Marchand alias Bloom, and three women known respectively as English Polly, May and Nelly. Natale has been only a few months out of Chicago jail after serving a term for counterfeiting. Three places where the gang had apparatus for making "queer" have been unearthed.

DEAR SIRS.—Within the past year I know of three fatty tumors on the head having been removed by the application of MINARD'S LINIMENT without any surgical operation, and there is no indication of a return.

CAPT. W. A. FITZ, Clifton, N. B. Gondola Ferry.

The printing machine was invented in 1814.

### Minard's Liniment Cures Garget in Cows

Julius Caesar had a weak digestion and was subject to epileptic fits.

### Minard's Liniment Cures Colds, etc.

Charlemagne had an ulcer on his leg that troubled him for many years.

### Minard's Liniment Cures Diphtheria.

Slavery was abolished in the British colonies in 1834.

### Use Vapors of Quickcure for Throat Troubles.

The houses of parliament at Westminster cover eight acres of ground.

### Minard's Liniment Cures Distemper.

The battle of Waterloo was fought on June 18th, 1815.

### Quickcure heals Sores, Cuts, Bruises, Burns, etc.

Don't strike a man below the belt unless you are aiming at his pocket-book.

# Travellers

Should always carry with them a bottle of Dr. Fowler's Extract of Wild Strawberry.

The change of food and water to which those who travel are subject, often produces an attack of Diarrhoea, which is as unpleasant and discomforting as it may be dangerous. A bottle of Dr. Fowler's Extract of Wild Strawberry in your grip is a guarantee of safety. On the first indication of Cramps, Colic, Diarrhoea or Dysentery, a few doses will promptly check further advance of these diseases.

It is an old, reliable remedy, with over forty years' of cures to its credit, whose merit is recognized everywhere, and one that the doctors recommend in preference to all others. Sold by medicine dealers everywhere at 35c. a bottle. Always insist on the genuine, as many of the imitations are highly dangerous.

### SKAGWAY NEWS.

Col. Steele's Estimate—Narrow Escape—Clergyman Drowned.

Vancouver, July 9.—The Athenian arrived from the north this morning and brought news of the wreck of a three-masted schooner five miles west of Carmanah Point. Her name could not be made out, but it was seen that the vessel aground inside a sand bar. She did not signal for help, so is supposed to be not much damaged. It is learned from Skagway that Colonel Steele, of the Northwest Mounted Police, has expressed an opinion that \$5,000,000 of Klondike gold will be brought down the Yukon river to Lake Bennett and come over the White pass.

A placer proposition, it is reported, has been discovered on Fifty-Mile river, fifteen miles below Marsh Lake. Regarding the quartz find at Tagish thirteen claims are already recorded and assays give \$22 a ton. The ore is free milling.

Lippy, of Seattle, who attempted to run the White Horse rapids with his sister-in-law, without a pilot, got over-turned. Fortunately, the rush of the waters forcibly threw them through the canyon and they saved their lives, but lost their outfit. The eagle screamed lustily in Skagway on July fourth. It was a great day. The only death from drowning reported by the Athenian passengers is that of Rev. Walter L. Lyon, the first Church of England clergyman to go north. He was making for Selkirk, and was drowned in White Horse rapids, according to an unconfirmed report which reached the Athenian just as she left Skagway.

### Murderer Returning.

Montreal, July 10.—The Italian arrested on suspicion of being Peter Cappello, who is wanted at New York for the murder of his wife and daughter, was identified by the New York police as the murderer. He thereupon broke down and confessed to being the man wanted. Extradition proceedings have been commenced.

While in this country Cappello has been engaged in the manufacture of counterfeit ten and twenty-five cent pieces, having for his chief accomplice a woman who travelled with him. The Canadian authorities have been on their train for some time.

### Brief News Items.

J. G. Turritt is to be appointed Dominion lands commissioner.

Several sailors have deserted from the British men-of-war at Vancouver.

The carpenters of Winnipeg will demand 30 cents an hour on August first.

Sir Oliver Mowat had a very startling experience at Kingston. He attended the McDowell memorial ceremony at Fredericksburg and was returning with a party of prominent Kingstonians on the steamer Jubilee. When opposite Clark's Malt house, near the entrance to the harbor, about 9.30, flames burst forth from the fire hole and caught the woodwork. There was great commotion among the passengers. Ladies were taken ashore in life boats. The flames were finally got under control. The Reginald, passing, was hailed and towed the steamer to Kingston. The engineer was scorched about the face. The rest of the party escaped uninjured. Sir Oliver Mowat was the coolest man on board during the excitement.

### Hawaiian Commissioners.

Washington, July 10.—The president has appointed Senator Cullom, of Illinois; Senator Morgan, of Alabama; Representative Hitt, of Illinois; Sanford Dole, president of the Hawaiian republic, and W. R. Frear, of Hawaii, to be commissioners under the Hawaiian annexation resolution.

### Striking Stereotypers Replaced.

Chicago, July 6.—The Chicago papers are publishing as usual today. The stereotypers who struck have all been dismissed and their places supplied by non-union men.

### To Cross the Sea.

London, July 10.—The Pall Mall Gazette says: King Leopold of Belgium starts in August on a long yachting cruise, adding that he will make a considerable stay in the United States.

### Seven Years Trial of the Celebrated All-Wool Mica Roofing

Has established its value for durability above all other kinds of roofing in any climate. A home industry, encourage it. Beware of American paper roofing, which the frost cracks. For samples and testimonials apply to W. G. FONSECA, Sole Agent, 705 Main St., Winnipeg.

TO CURE A COLD IN ONE DAY. Take Little Brown Quinine Tablets. All Druggists refund the money if it fails to cure. 2c.

## The Moose Jaw Times.

"And what is writ, is writ,—  
Would it were worthier!" —Byron.

FRIDAY, JULY 15, 1898.

### SHIFTING.

The following extract, clipped from the columns of a local exchange, indicates how volatile many people are and how quickly they are affected by present indications, forgetting the lessons of the past, even if these were dearly bought:

"A number of farmers are breaking up part of their pasture ground, believing that on an average grain pays better and is less trouble than stock."

There is many a "slip betwixt cup and lip." It's hardly safe just yet to bank on the wheat crop. While "on an average grain may pay better than stock," there is no good reason why stock should not be made to return a good deal better profit than the "average" man makes out of them. And in the event of a damaged wheat crop or an abundant coarse grain crop the only profitable way to dispose of it is through live stock of one kind or another. "It's an ill wind that blows nobody good," and it's some consolation to think that the more people break up their pastures and go out of stock, the greater profits will those make who stay right with it. The writer of the above clipping says these farmers consider there is "less trouble," in grain-growing than stock-raising, but that depends; and the man who acts on that theory may land himself into a heap more trouble than had he kept right on trying to improve and make more profitable the stock he had. Raising nondescript, scrub horses that nobody wants, cows that won't milk more than five or six months of the year, or give more than 100 pounds of butter in a season, won't pay, certainly, and unless a determined effort is made to raise more profitable stock, a man might as well break up his pasture and go in for all wheat. Of course, in this Province wheat is king, and will, in all likelihood, so remain, and there is no doubt that sooner or later the necessity will be forced upon people to put their wheat land into a grass rotation in order to re-supply it with humus, root fiber, to prevent soil drifting, to conserve moisture, and to improve the mechanical condition of the soil, so that wheat may continue to be profitably grown. With cultivated grass, more stock can be kept on less area and kept better, and the more certain and convenient supply of hay will make it easier to carry the stock through the winters, which influences so greatly the profit or loss in stock-raising—Farmers' Advocate.

### THE INDUSTRIAL.

Monday's Winnipeg Tribune had the following timely article in regard to the Industrial Fair, which opened in that city that morning: "The Winnipeg Industrial Exhibition, which opens to-day, has become an event of importance not only to the city of Winnipeg, but to the Province of Manitoba and the whole Canadian west. The first provincial fair, started in the early eighties, was an almost complete failure, doubtless due to the fact that it was started too early, when the province was not ready for it.

"The present exhibition, which has become such a pronounced success, was started in a more favorable time, but its success is not due to that alone, but to the perseverance of directors, who held on till difficulty after difficulty was surmounted, and to the energy and

judgment of the management; and not least to the work of the present manager, Mr. F. W. Heubach.

"The fair has become such a feature, has become such a part of our provincial life, and people, both in the city and out, have consciously and unconsciously made such preparations for it as an annual event that its real importance is in a measure not fully realized. It has been accepted by some as the time to make a break in the work of the year and take a brief relaxation amid new scenes; with others it means the fixing of a convenient place and period for doing business, while the number who come from outside at this time in order that they may have a bird's eye view of the whole country, is constantly increasing.

"The educative and business features of the fair must not be lost sight of, as is always too likely to happen. The Exhibition is a great holiday, but it is also a great summer college and a great commercial fair, and if it were blotted out, such a serious break would be made in our commercial arrangements as would be seriously felt in all departments of business.

"Unlike almost every other business, the carrying on of a great fair, lasting but one week in the year, is an undertaking peculiarly exposed to loss from bad weather. A day lost can never be made up in the successes of the few remaining days, and the Winnipeg Industrial having had its share of bad weather in the past, it is the hope of everyone that the selection of a week earlier this year will be justified by an ideal week when the good results of the fair will be realized to the full.

The unprecedented growth in the Territories as a whole—and this district in particular—renders it necessary for our farmers to be particularly cautious as to the spreading of noxious weeds. A favorable season for weeds, and a little work now may save much annoyance in the future.

In response to several requests, and in order that our ranchers and farmers may have the information they so much need, we publish this week the list of stray and impounded animals advertised in the North-West Gazette. In future we will make this a feature of THE TIMES and hope that it will be beneficial to, and appreciated by our many readers throughout the Territories.

A despatch from Ottawa says: "The customs department has not yet made out its returns for this year but when this is done it will show that the increase of imports were so large over the preceding year that the revenue on the duty collected will have increased by about \$2,000,000, notwithstanding the reduction by preferential tariff." A tariff for revenue is not a tariff for protection.

The Canadian Grocer is impelled to declare that Canadian bacon has attained a unique position in the British market. In addition to statistics showing that the trade has increased from \$1,800,000 in 1893 to \$5,000,000, it cites the Grocer's Journal of London as stating that "while the fall in price in continental and Irish bacon has been very heavy, Canadian has dropped only a shilling or so, and last week remained unmoved amid a scene of tumbling quotations everywhere. This is because buyers are turning to it at all centres, knowing that the quality is all they require."

We have not heard the last of the Klondyke. If there were fifty wars with Spain, the news from the Yukon that is expected to come down before long would excite our interest. A correspondent of the Chicago Record, one of the most reliable and careful of the newspapers of the United States, sends word that at least fifteen millions may be looked for as the result of the spring's clean up. Here are his own words: "Fifteen million dollars is a conservative estimate of the amount of gold that will be taken out of the mines in the Klondyke fields this season. These are the figures I arrive at after making a thorough investigation. I had interviews with nearly all of the mine owners, as well as many employees. I panned dirt of my own selection at mine after mine. I measured depth and width of pay ground. I counted the windlasses in operation and took note of the number of men employed, the length of time they have worked and will yet remain at work."

A. WILSON, Blacksmith.

## Nimble as a School Boy!

Ninety-nine Cases in a Hundred that Is the Hearty Verdict for South American Rheumatic Cure.

Rheumatism is a dangerous disease—while stiffened joints and muscles—incessant intermittent pains in these parts—are the common forms of this so common ailment—in its more acute forms it often attacks vital parts—such as the heart and brain with fatal results—unexpectedly so in many cases—and where death does not follow, the patient is liable to derangements—which are absolutely incurable. No case of Rheumatism of too long standing to succumb to this wonderful treatment—the Great South American Rheumatic Cure.

It is simple and harmless—relieves the pain and dispels the cause—Cures muscular, acute, chronic or inflammatory rheumatism, neuralgia and lumbago in from one to three days—it's an unfailing specific. Mr. J. D. McLeod, of Leith, Ont., says: "For seven years I suffered agonies from rheumatism. I was confined to my bed for months at a time. I was unable to turn myself in bed. I was induced to try South American Rheumatic Cure. Inside of 12 hours after I had taken the first dose the pain had all left me—three bottles cured me—and to-day I am as nimble as a school boy."

SOUTH AMERICAN KIDNEY CURE—The answer of science to the cry of the suffering—pre-eminent as a purifier—rich in healing is the every day remedy for this great remedy—it is a kidney specific—it dissolves and eradicates from the system all foreign matter—alters inflammation and pain in the bladder—relieves most distressing kidney and bladder disorders—Bright's disease—diabetes—gravel—dropsy and kindred ailments—relief in a few hours in most distressing cases—witnesses of testimony.

SOUTH AMERICAN NERVINE—Cures diseases by removing the cause—tonics the nerves—creates healthy appetite—stimulates digestion—indigestion the liver—makes good, rich blood—gives strength to the muscles and strengthens the hands—corrects the whole system and wards off disease—the greatest of tonics—flesh builder—a perfect regulator—a boon to mankind and womanhood.

SOLD BY W. W. BOLE.

Address, 7:30. Holy Eucharist on Holy  
Days and Saint's Days.  
All seats free. Everybody welcome. Hymns  
Ancient and Modern are used.

## OUR OTTAWA LETTER

### HAVE THE YUKON OFFICIALS BEEN SPECULATING

**At the Expense of the Pioneer  
Miners?—Our Correspond-  
ent Says "No," and Gives  
the "Facts of the Case."**  
—Other Interesting Yukon  
Matters—Penny-Postage, &c.

Ottawa, July 6th, 1898.—Some promi-  
nence has been given during the past  
few days to a statement originating in a Win-  
nipeg paper which charges Government  
officials in the Yukon with using valuable  
information gained in their official capacity  
to their personal advantage and to the  
public loss. It is alleged that when rich  
discoveries were reported to the Crown,  
the Registrar and Inspector of Mines im-  
mediately staked off adjoining claims  
which they now hold for speculative pur-  
poses. If this were the case the protest so  
vehemently offered by the Conservative  
press would be endorsed by all friends  
of honest administration; but the facts  
appear to be otherwise.

**THE FACTS OF THE CASE.**  
The official who is understood to have  
secured an option on Monte Cristo Island,  
the case under consideration, is Mr. Wade  
who is Clerk of the Peace and Crown  
Attorney for the district under the De-  
partment of Justice at Ottawa. Mr.  
Wade is neither Registrar nor Inspector  
of Mines, and has no special means, as a  
Government official, of securing in-  
formation which would enable him to locate  
any claim or give him any advantage over  
others.

The principal official in Dawson City is  
Mr. Fawcett, a Conservative who has been  
several years in the public service and is  
a Conservative appointee. He is Gold  
Commissioner at Dawson City and the  
only man whose official duties would  
place him in possession of the information  
that could be turned to personal pecuni-  
ary advantage. If any irregularities of  
the nature complained of have occurred,  
Mr. Fawcett must know of them and is  
responsible, but from his past record and  
well established reputation there is no  
suspicion of any questionable action on  
his part or on the part of the others with  
his knowledge. This is equally true of  
all other Government officials in the dis-  
trict from Major Walsh down. So far  
from there being a suspicion of wrong  
doing, the fact is that returning miners  
invariably speak in terms of the highest  
praise of the Government representatives  
both as men and as officials.

## Weak Lungs

If you have coughed and  
coughed until the lining mem-  
brane of your throat and lungs  
is inflamed,

### Scott's Emulsion

of Cod-liver Oil will soothe,  
strengthen and probably cure.  
The cod-liver oil feeds and  
strengthens the weakened tis-  
sues. The glycerine soothes  
and heals them. The hypo-  
phosphites of lime and soda  
impart tone and vigour. Don't  
neglect these coughs. One  
bottle of the Emulsion may do  
more for you now than ten  
can do later on. Be sure you  
get SCOTT'S Emulsion.

All druggists: Soc. and Gen.  
SCOTT & BOWNE, Chemists, Toronto.

## Ogilvie was not in authority.

Some papers commenting upon this  
matter take occasion to find fault with  
the Minister of the Interior for having,  
as they allege, recalled Explorer Ogilvie,  
who is erroneously stated to have been in  
charge of the administration of the Yukon.  
Mr. Ogilvie never was Administrator  
of the Yukon nor did he at any time have  
more authority to administer the laws than  
the poorest miner in the country. He was  
sent in in charge of an ordinary survey  
party, his only duty being those of a  
surveyor. For many months before his  
return to civilization he had been anxious  
to come out to complete his returns and  
make his report to the Surveyor-General  
at Ottawa. While not desiring to detract  
from the well-deserved reputation which  
Mr. Ogilvie enjoys as a result of his con-  
duct while in the far North, it may be  
pointed out that he himself has stated  
that he at no time felt debarred by his  
official obligations from taking up claims,  
but that, having been frequently called  
upon by miners to adjudicate disputes  
between them he would not hamper his  
position as an arbitrator by any personal  
interest in matters that might be under  
dispute.

## MR. OGILVIE'S REPORT IGNORED.

Another fact that is worth remember-  
ing is that Mr. Ogilvie frequently urged  
upon the late Government the necessity  
and importance of providing for the ad-  
ministration of the Yukon but his reports  
were pigeon holed, and no attention was  
given to the matter until Mr. Sifton be-  
came a member of the present Govern-  
ment and took charge of the Interior.  
Since that time the development of the  
country and the provision for the efficient  
administration of the common law and  
the mining regulations have been pro-  
gressing side by side with marvellous  
 strides. And so thoroughly has the re-  
putation of the country and the law abid-  
ing character of its people been establish-  
ed throughout the world and in spite of  
obstacles thrown in the way by the op-  
ponents to the Government that space  
need not be taken to further discuss the  
matter. Credit for this is due alike to  
the administrative head here and to the  
capable and honest officials charged with  
carrying out his instructions. As far as  
any reliable authenticated information  
has been received these latter without  
exception have proved true to their trust  
under exceptionally onerous conditions,  
and it is a poor return for services effi-  
ciently and faithfully rendered and for  
which no ordinary pecuniary acknowl-  
edgement can be adequate compensation  
to circulate unsubstantiated stories re-  
flecting upon their honesty of purpose.

## A SIGNIFICANT SILENCE.

It is a significant circumstance that  
these stories of wrong doing cease during  
the time Parliament is in Session, only  
to gain currency again as soon as the House  
proceeds. Statements similar to this  
were published some weeks ago, but not  
a word was said about it in the House,  
where the truth could have been quickly  
established. Such however has been the  
history of all the stories about the ad-  
ministration of the department of the  
Interior—those who start a false report  
are not the men to be honest enough to  
seek the truth and publish it with equal  
assiduity.

## IMPERIAL UNITY.

The latest advice from old London in-  
dicate that the Pastmaster-General's  
scheme for an Imperial Penny Postage  
rate is finding favor with the delegates to  
the Inter-Imperial Postal Conference.  
"Once again," says the cablegram, is  
Canada asserting herself as the pioneer  
of the Empire."  
Undertaken by the apparent failure of  
the Petersen-Tate Company to float the  
steamship line between Canada and the  
old country, the Government is actively  
engaged in negotiating fresh arrange-  
ments which will accomplish the much  
desired object, and there is little doubt  
that the Minister of Railways will be able  
to report substantial progress upon his  
return from England.

## NOTES.

The name of B. B. Osler, Q.C., brother  
of the Conservative Member for West  
Toronto, is freely mentioned as the Lib-  
eral candidate in North Simcoe in the by-  
election necessitated by the lamentable  
death of the late Dalton McCarthy. Mr.  
Osler would be a strong candidate and  
his election to the House of Commons  
would be a distinct acquisition to the  
councils of the nation.

It is a fact worth noting that at the  
very time when the revised tariff of the  
Liberal policy is coming into full effect  
with the complete operation of the pre-  
ferential clauses, there is more factory  
building in progress in the ultra-pro-  
tectionist city of Toronto, than there has  
been at any time since the now happily  
defunct N.P. A moderate estimate is  
that the new factory buildings erected or  
to be erected in Toronto this season will  
afford work for three thousand additional  
operatives.

Alex. Smith, the popular organizer of  
the Liberal party in the province of On-  
tario, left Toronto on Thursday on an ex-  
tended trip through to the coast. He  
expects to visit all the principal places on  
the way. While the trip is mainly taken  
for the purpose of thoroughly establish-  
ing his health after a somewhat severe  
illness, he will doubtless take the oppor-  
tunity of putting in a good word for the  
cause wherever needed.

## KIDNEY DECEIT.

How Many are Unintentionally Deceived  
in Treating Kidney Disorders?—Can  
You Afford to Trifle With Your Own  
Existence?—If you suspect there is  
Any Kidney Trouble, Discard Pills,  
Powders and Cure-Alls—South Amer-  
ican Kidney Cure is a Time-Tried  
and Testified Kidney Specific.

A remedy which dissolves all obstruc-  
tions, which heals and strengthens the  
affected parts, and which from its very  
nature eradicates all impurities from the  
system, is the only safe and sure remedy  
in cases of kidney disorder. Such a  
remedy is South American Kidney Cure.  
This is not hearsay. The formula has  
been put under the severest of tests, and  
it has been proclaimed by the greatest  
authorities in the world of medical science  
that liquids—and liquids only—will ob-  
tain the results sought for. A liquid  
remedy taken into the system goes  
directly into the circulation and attacks  
immediately the effected parts, while  
solids such as pills and powders cannot  
possibly attain the same results. Kidney  
disorders cannot afford to be trifled with.  
The quickest way is the safest way to  
combat these insidious ailments. This  
great remedy never fails. It's a liquid  
kidney specific. It's a solvent. Sold by  
W. W. Bole.

## They Have it at Regina.

Regina Leader: Owing to a falling off  
in the number of pupils attending the  
High School, the Regina School Board  
have been seriously considering a reduc-  
tion of the staff in that department, or a  
re-arrangement that would lessen the  
congestion manifest in some of the public  
school rooms. The Board has decided to  
defer the proposed step at least until the  
end of the year, and the High School staff  
will remain as at present until Christmas.  
An additional teacher will be engaged  
after vacation for the public school, in  
some of the rooms of which during the  
past few months the average attendance  
has exceeded sixty pupils. At a meeting  
of the Board held on Friday, it was de-  
cided to increase the High School fees  
for resident pupils to \$12 per term and  
non residents \$16 per term.

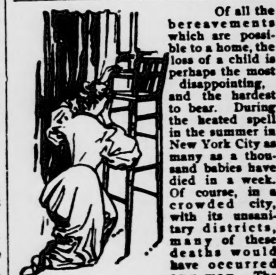

## HELPLESS FOR SIX MONTHS.

Rheumatism Held Him in Chains—Suf-  
fered Untold Torture—The Great  
South American Rheumatic Cure  
Waged War and Won a Complete  
Victory—Relief in a Few Hours.

"I have been a great sufferer from  
rheumatism. I was completely helpless  
for over six months. I tried all kinds of  
remedies but got no relief. Having  
noticed strong testimonials published of  
the cures effected by South American  
Rheumatic Cure I obtained a bottle of  
it, and received relief from pain from the  
first dose, and in an incredibly short  
time I was entirely freed from my suffer-  
ings. James K. Cole, Almonte, Ont."  
Sold by W. W. Bole.

## An Altercation at Medicine Hat.

News: On Saturday night an alter-  
cation took place at J. R. Johnston's farm  
east of town a couple of miles, between  
Johnson and Chas. Jenkins. Johnson  
recently homesteaded this place and in  
fencing it crossed in two places a trail  
running between Rose Creek settlement  
and Medicine Hat, putting gates at the  
trail crossings. Parties leaving the gates  
open and allowing his horses to stray  
caused him annoyance, and on the night  
in question a row took place between the  
two parties over the closing of a gate and  
in the excitement Jenkins stabbed John-  
son several times in the hand with a saw  
file which he happened to have with him.  
Jenkins was arrested and on Monday  
night before Supt. Moffatt and Inspector  
McGibbon, he was charged with the  
trouble, and on hearing the case he was  
sentenced to thirty days at the Barracks,  
Maple Creek.

Of all the bereavements which are pos-  
sible to a home, the loss of a child is  
perhaps the most devastating and dis-  
appointing, and the hardest  
to bear. During the heated  
period of gestation, a woman  
in the summer in New York City as  
many as a thousand babies have  
died in a week. Of course, in a  
crowded city, with insanitary  
districts, many of these  
deaths would have occurred  
any way. The  
fact remains that this tremendous mortality  
was to a great extent due to the lack of  
inherent resisting power in the victims.  
These babies when born had in their bodies  
the seeds of disease. The deadly heated  
term only shortened the period of their  
sufferings.  
A woman wishes her babies to be  
healthy and strong and able to resist the  
usual ailments of childhood, she must take  
proper care of herself in a womanly way  
during the period of gestation. A woman  
who suffers from weakness and disease of  
the organs distinctly feminine is unfitted  
for wifehood and motherhood. Dr. Pierce's  
Favorite Prescription is a wonderful medi-  
cine for ailing women. It acts directly on  
the delicate and important organs con-  
cerned. It makes them well and strong.  
It allays inflammation, breaks up ob-  
structions, soothes pain, restores ex-  
hausting drains and gives rest and tone to the tortured nerves.  
Thousands of women have testified to its  
almost miraculous merits. Many of these  
have permitted their names, addresses,  
experiences and photographs to be repro-  
duced in Dr. Pierce's Common Sense Med-  
ical Adviser. This great book used to sell  
for \$1.00, now it is absolutely free. It tells  
all about the home-treatment of ordinary  
diseases. It contains 100 pages, and over  
300 illustrations. Several chapters are de-  
voted to the diseases of women. For a  
paper-covered copy send 31 one-cent stamps,  
to cover cost of postage and mailing  
only, to the World's Dispensary Medical  
Association, Dept. N. Y. C. Cloth binding,  
50 cents. "Favorite Prescription" is sold  
by all druggists.

## The Reason Why Shorey's Ready to Wear Clothing...

Is better in style and finish than what I can get  
from my tailor.

Of course a large concern like Shorey's  
can keep a staff of experienced workmen upon  
one class of work from year to year until they  
become absolutely perfect, while a tailor's  
hands produce a sack coat to-day, a dress coat  
to-morrow and so on, consequently they can-  
not be expected to attain the proficiency of  
Shorey's workmen.

Shorey's Guarantee Card in the pocket of  
every garment shows that the firm is bound to  
give perfect satisfaction in every instance.

Sold Only by M. J. MacLeod.

## Manitoba Granite

SUMMERVILLE & CO., of Brandon, Man., the largest and best  
equipped marble works in the Dominion, are now manu-  
facturing at their own yards, and polishing at their own mills, at  
Brandon the Native Granite of Manitoba. It is a beautiful dark  
red color, very fine in texture, and takes the highest possible polish.

## A WORD TO THOSE WHO WANT A MONUMENT OR MEMORIAL STONE.

Do not order till you have seen samples of this beautiful granite. It is the purest,  
handsomest, and most durable that is on the market. It is equal in finish and is  
finer than the grain than the best Scotch or New Brunswick granite, and fifty per  
cent cheaper, as we are saving both duty and freight by using home material; and  
are paying in wages to employees what formerly went out of the country for stock.  
We are the only producers of this stone in the Dominion. All orders entrusted to us will receive  
prompt attention; and finished second to none in the Dominion. Our travellers are  
now showing designs and samples. We also make Carving Stones of this granite,  
which are considered by Mr. F. Knight and others of Manitoba's best workers who  
have tried them, to be equal to the best Scotch stone.

Travellers.—W. C. Stewart, W. Summerville, D. McIntyre.

Branch Office, 25 F. St., Washington, D. C.

# U. S. CONDITIONS OF PEACE.

## Ruinous Terms Demanded -- London Times on the Situation.

### NO FURTHER FIGHTING SINCE SUNDAY.

Miles at Santiago—Five Thousand Men Arrive at Juragua—Sagasta Resigns—Cervera in Prison.

Off Santiago de Cuba, July 11.—At half-past nine this morning, after several range-finding shots over the ridge, the United States cruiser Newark opened fire into the city with her eight-inch guns. The signal corps officers stationed on top of the ridge, reported the effect of the shots. The New York, Brooklyn and Indiana participated in the firing at intervals of five minutes. The bombardment lasted for two hours, when Gen. Shafter reported that the shells were mostly falling in the bay and doing but little damage. The last shot, however, struck a prominent church in the heart of the city, which was heavily damaged, with powder and ammunition, causing a tremendous explosion, the extent of damage is not yet known. When the warships ceased firing and before Gen. Shafter had begun a land attack, a flag of truce was seen coming from the city. The object of this was not known at noon today when the correspondent of the Associated Press left the front.

#### Terms of Peace.

Madrid, July 11.—It is asserted that the United States makes the following demands as conditions of peace: First—The possession of Cuba and Porto Rico with a port in the Canaries.

Second—An indemnity of \$15,000,000 (about \$20,000,000).

Third—The retention of the Philippines as a guarantee of the payment of the indemnity. These terms are regarded as impossible.

London, July 12.—The Berlin correspondent of the Standard says: "The queen regent is willing to open peace negotiations with the United States without any mediation of the powers, provided the conditions are not too severe. Her maximum concession at present is a declaration of the independence of Cuba."

London, July 12.—The Times, commenting editorially this morning upon the glowing outlook for Spain, says: "Unless the new cabinet is quickly formed the delay may easily issue in confusion or even in disorder, which would indefinitely complicate the whole problem."

The government at Washington was wise to insist upon the unconditional surrender of Santiago. It says: "Besides risking an unnecessary loss of life, without appreciably furthering the conquest of Cuba, the United States may soon find themselves in a position of serious moral responsibility for the starving population."

#### At Washington.

Washington, July 11.—Up to midnight no news from either the army or navy at Santiago had reached the department, so far as the public was informed, though the possibility of interrupted cable communication was suggested as an explanation for the lack of advices. It was announced at midnight that the government had filed at Playa del Este for the officials here. Both Secretaries Long and Alger were at the White House during the evening, but returned to their residences early, and gave no outward sign of anxiety or expectation of startling news. The arrival of General Miles, and the conferences between him and the commanding officers of the army and navy, is taken by some to indicate that if fighting occurred to-day it was not of a serious character, for with a heavy engagement in progress, it was hardly possible that Admiral Sampson or General Shafter would find time for conferences. It is thought possible the arrival of General Miles caused a suspension of active operations in order that the entire situation might be discussed. But this view of the situation is speculation and without definite advices and news can say exactly what the day has brought forth at Santiago. Officials contend that a delay of a day or so can only result in bettering the position of the United States forces, and opportunity for reinforcements to go to the front and allow the newly arrived artillery to be placed in advantageous location. It is believed that if the conflict was not resumed to-day a final attack is not far distant.

#### MILES AT SANTIAGO.

Washington, July 11.—General Nelson A. Miles, commanding the United States army, arrived off Santiago bay shortly after noon today. Upon the arrival of the auxiliary cruiser Yale, on which General Miles was a passenger, communication was opened with Admiral Sampson and the two commanders were soon in conference. During the early afternoon, General Miles landed at Playa del Este and communicated with General Shafter, commanding the United States forces before Santiago by telephone. What the nature and result of the two consultations were is not disclosed at the war department, but General Miles doubtless was placed in possession of all salient points on the situation from the view point of both the navy and the army. It is understood to have been General Miles' purpose to proceed immediately to General Shafter's headquarters at Siboney and after discussing with Shafter the latter's plan of campaign, to make a personal examination of the United States position. It is not to be understood that General Miles is to supersede General Shafter in command of the United States forces before Santiago. General Shafter is operating from the secretary of war, approved by the president, and so long as he is able physically to direct the troops, he will retain his command.

A prominent official of the war department said late to-night that neither the administration nor General Miles had any desire to detract an iota from the credit due to General Shafter for the part by which he hoped to accomplish a victory at Santiago. The notably fast run made by the Yale from Charleston to Santiago is particularly pleasing to the naval officials. She left Charleston Saturday morning at 2 o'clock, making the run in a trifle less than two days and a half. She had on board the Sixth Massachusetts, one of the regiments of General Garretson's brigade. The Columbia, which left Charleston, Pennsylvania, Saturday morning, carried one battalion of the Sixth Illinois, also a part of Garretson's brigade. So far as can be learned at this writing, the Columbia has not arrived off Santiago.

#### Sunday's Bombardment.

Headquarters of General Shafter, Sunday, July 10, 8 p. m., per American Press dispatch from Port Antonio and Kingston, Jamaica, Monday, July 11, noon.—From 4 o'clock this afternoon until dark the United States guns have again been pouring a deadly fire into the Spanish lines. The United States troops are greatly assisted by their three days' rest and have been fighting with lion-like spirit. The knowledge of the arrival of reinforcements gives them new enthusiasm. The artillery is in place and doing effective work. The fire from the Spanish lines in the trenches is very weak. The city of Santiago is almost in darkness this evening and the United States troops believe that the resistance of the Spanish is about at an end. They expect a general assault to-morrow should the city not have surrendered by daybreak. The United States forces are now much better fortified in their trenches.

#### Debarking Reinforcements.

Juragua, July 10, via Associated Press dispatch from Port Antonio, July 11, via Kingston, July 11, 4:30 a. m.—The shores of this little cove were the busiest at Juragua this afternoon. Five thousand men were either disembarking from steamers or preparing to take up the march to General Shafter's headquarters near Santiago de Cuba. There was as much confusion as if ten thousand were preparing to make camp. The officers were looking for horses and mules, trying to keep their men together, sending sick men to the hospital, and attending to various other matters. The engineers were building a rough wharf of heavy timbers to be used in landing artillery. The landing of troops here is necessarily in small boats carrying up to twenty men each. The boats run through a light surf and the landing is as safe as at a wharf, though the men often get wet. When the Dandy left Juragua it was expected that the whole expedition would soon be struggling along the ten miles between the landing place and the front, the infantry going in light order, with three days' rations and rain coats. At 5 o'clock a heavy rain was falling and threatening to make the road disagreeable for the infantry, and very bad for the artillery. The Cuban auxiliaries, with rifle and machine, were out in large force, drawing rations. They seem to have recovered from their state of starvation, and are getting fat. During the afternoon the hospital ship Solace arrived, and all the sick who were able to be moved were taken from the tent hospital and placed on board her. The sight of the wounded men had a depressing effect on the volunteers.

#### Sagasta Resigns.

London, July 12.—The Madrid correspondent of the Times, telegraphing Monday, says: "Senor Sagasta went to the palace to-day and tendered his resignation, and that of the cabinet. It is said that he advised the queen to appoint a new cabinet, largely consisting of the military element, which would not necessarily mean the adoption of a warlike policy, but probably the reverse. It is generally expected that the resignation will be accepted, but the result may possibly be merely a partial reconstruction of the cabinet. The ministers are now in council, and Senor Sagasta has doubtless communicated to them an account of his audience with the queen regent."

#### DON CARLOS FOR PEACE.

London, July 12.—The Madrid correspondent of the Times, telegraphing Monday, says: "Don Carlos, who leaves Brussels to-day, significantly advocates direct peace negotiations with the United States, without the intervention of the powers."

Portsmouth, N. H., July 11.—Admiral Cervera experienced a quiet day on board the St. Louis and several times promenaded the deck, attended by several of the Spanish officers. In reply to the state of his health brought the reply that he was quite well. The admiral seemed to have recovered to some extent his spirits and was seen talking earnestly and laughing during the conversation. Six hundred and ninety-two of the Spanish prisoners are tonight sleeping peacefully and in comparative comfort in the new barracks erected for them on Seavey's Island. Around them is a guard of 125 marines, the pick of the corps of the Maine barracks on the Atlantic coast.

#### A NARROW ESCAPE.

Washington, July 11.—Surgeon-General Sternberger received a dispatch from Surgeon Richards stating that a hospital train bearing the wounded

ed to Fort McPherson, near Atlanta, south of High Springs last night. No one was hurt, the dispatch said, but a private car was demolished. Surgeon Richards expected the train to proceed and reach Fort McPherson at 1 o'clock. General Sternberger said the demolition of the private car would not seriously interfere with the efficiency of the hospital train.

WOUNDED AT McPHERSON. Atlanta, Ga., July 11.—The hospital train bearing wounded soldiers from Tampa arrived at Fort McPherson to-day. All the men are doing well, and none of them knew of the accident at High Springs, Fla., until informed by surgeons.

UNITED STATES AND SAMOA. Berlin, July 12.—The Vossische Zeitung, forecasting that the annexation of Hawaii, it is "possible that the United States may attempt to acquire the Samoan Islands also," says: "America has practically no right to Samoa, and many voices must rank before America in the future fate of the islands. Germany will therefore take care that her interests are protected in the final settlement."

THE SPANISH WRECKS. Off Santiago de Cuba, July 10, via Kingston, July 11, 3 p. m.—The word of a survey appointed to examine the wrecks of the Spanish ships, and to inquire into the nature of their injuries, reports that only one ship can possibly be saved. She is the Infanta Maria Teresa, the former flagship of Admiral Cervera.

MONDAY'S WAR NEWS.

Washington, July 10.—The Secretary of War has received the following: Have just received a letter from Gen. Torals declining unconditional surrender. Bombardment by the army and navy commenced this afternoon.

(Signed) SHAFER.

Reinforcements have arrived in Cuba for Gen. Shafter. The Spanish have been reinforced by the arrival of 6,000 men from Manzanillo. These are the troops nominally under the command of Gen. Pando, but that officer is in Havana. It is believed by the officers of the administration that the bombardment will result in the surrender of the city.

What pleases the administration most, is that there is likely to be little, if any, loss of life to the American army, as the attack will be carried on at long range by the heavy batteries.

Washington, July 11.—At 12:31 this morning the war department posted the following: The enemy opened fire at a few minutes past 11 with light guns, which were silenced by ours. Very little musketry firing, and the enemy kept entirely in their trenches. Three men were slightly wounded. Will have considerable blockades all roads on the northwest. I am quite well. Gen. Garcia reports that the enemy evacuated a little town called Dukominas, about three miles from Santiago, near bay.

(Signed) SHAFER.

Changes in the Navy.

Washington, July 6.—New York Herald special.—There are reports that many of the naval plans are to be changed as far as commanders are concerned. The most important was the one on which Watson was not to be in command of the fleet that is to go to Spanish waters and pursue Admiral Camara. Watson, it is said, is organizing a fleet and will go to Porto Rico soon and take possession. Commanders are to take a fleet to Spain if the war continues.

News from Manila.

Hong Kong, July 7.—Advices from Manila state that the insurgent have captured Santa Cruz and entered Tondo. Shots are falling into Binondo. At Malabon they have court-martialed the mayor for having caused fifteen natives to be executed while the Spaniards were in control there. There is general indignation at General Monet's desertion of his post on such a feeble pretext. An officer proposed to dress him in peacocks' feathers, to war and feather him. The Spaniards have captured Calocan.

Praise for Victories.

Washington, July 6.—President McKinley, at 4 o'clock to-night, issued the following proclamation to the people of the United States: "To the people of the United States of America: When, to the yet fresh remembrance of the unprecedented success which attended the operations of the United States fleet in the bay of Manila, on the first day of May last, are added the tidings of the no less glorious achievements of the naval and military arms of our beloved country at Santiago de Cuba, it is fitting that we should pause, and, staying the feeling of exultation that so naturally attends great deeds wrought by our countrymen in war, we should reverently bow before the throne of divine grace and give devout praise to God, who holdeth the nations in the hollow of His hands, and worketh in them the marvels of His high will, and who has thus far vouchsafed to us the light of His face, and led our brave soldiers and seamen to victory."

"I therefore ask the people of the United States, upon next assembling for divine worship in their respective places of meeting, to offer thanksgiving to Almighty God, who, in His inscrutable ways, now leading our hosts upon the waters to unsundered triumph, now guiding them in a strange land through the dread shadows of death, to success, even though at a fearful cost, now bearing them without accident or loss to far distant climes, has watched over our career, and brought us to the success of the right and the attainment of just and honorable peace."

"With the nation's thanks let there be mingled the nation's praises that our gallant sons may be shielded from

harm alike on the battlefield and in the clash of fleets, and be spared the scourge of suffering and disease, while they are striving to uphold their country's honor and uphold the nation's heart be stilled with holy awe at the thought of the noblemen who have perished as heroes die, and be filled with compassionate sympathy for all those who suffer bereavement or endure the wounds and wounds by reason of the awful struggle, and before all let us pray with earnest fervor that He, the dispenser of all good may speedily remove from us the untold afflictions of war and bring to our dear land the blessings of restored peace and to all the domain now ravaged by the cruel strife, the priceless boon of security and tranquillity."

The Reina Mercedes.

Headquarters of General Shafter, Tuesday, July 5, via Associated Press dispatch from Dandy, via Port Antonio, and Kingston, July 6, 5 p. m.—The destruction of the Spanish vessel Reina Mercedes last night, Monday, accounts for the last ship of Admiral Cervera's once splendid squadron. She lies to-day in plain view, resting on the beach of the harbor. El Morro, Part of the hull is above water, and her masts and two stacks are entirely out of water. It is not yet known whether she attempted to escape from the harbor or whether the Spaniards tried to sink her near the hull of the Merrimac, and thus block the entrance to prevent the United States fleet from getting in. Her sinking was most dramatic. Just after midnight she was seen drifting slowly out of the narrow entrance by one of the United States scouts. In a moment the fleet was ablaze with signals and almost instantly an awful hail of shells was hammering down upon her. It is not known whether she returned to the fire, but the shore batteries opened and one six inch shell fell on the Indiana's forward deck, exploding below. The explosion occurred in the men's sleeping rooms, but all were at quarters and none were hurt. No other United States ship was hit during the engagement, or incident, which lasted only a few minutes.

YELLOW FEVER ABATED.

Washington, July 9.—The Marine hospital service to-day stated that that last case of yellow fever at McHenry, Miss., has been discharged.

Spaniards Mutiny on the Harvard.

After the destruction of the Spanish fleet, some 450 of the men on the Maria Torrey were placed as prisoners on the Harvard. For some reason not yet ascertained these men mutinied. The officers and crew of the Harvard were not unprepared, however, and the mutineers were fired on. Six Spaniards were killed outright and twelve were wounded. This taught the Spaniards a lesson, and restored quiet.

THE DEADLY HEAT.

The U. S. Soldiers Falling Victims to the Cuban Climate.

Secretary Alger, on leaving the cabinet meeting at 12:30, July 5th, said the president had sent a telegram to Admiral Sampson and General Shafter asking them to confer as to what the present situation at Santiago demanded. General Alger also said that when all the facts have come to be heard it would be seen that extreme heat and the severe work done by the troops have contributed as much to United States losses at Santiago as the fire of the enemy. The war department has been informed of the arrival of General Pando at Santiago with reinforcements for the enemy.

Occupation of Manila.

A special from Hong Kong says the news of the occupation of Manila is expected tomorrow evening.

Brutal Cubans.

It is now known that after the fall of El Caney on July 1, the Spanish soldiers who escaped along the foot hills, marched into General Garcia's men, posted to the north of Santiago. They fought desperately, but were shown no mercy by the Cubans, and were mached to the last man. General del Ryo, who was in command, was brutally mutilated. The knowledge of the massacre found its way into Santiago, and changed the Spanish resolution to die rather than surrender. After the fall of El Caney, the Cubans moved the town. Information of the two contracts was promptly conveyed to General Shafter, who issued orders that any Cuban found rifling the bodies of the dead or wounded Spanish would be promptly dealt with. To prevent the possibility of the Cubans plundering Santiago when it capitulates, it has been decided to forbid the Cubans entering the town.

He Knew His Part.

Tired Taggsey—Isn't that yer pard dat's beckonin to yer over dere on de hill? Weary Walker—Now, of course not. Tired Taggsey—How d'yer know? Weary Walker—Don't yer see how he's sawin de air wid his arms? Tired Taggsey—Wot's wrong wid dat? Weary Walker—Sawin's work.—Up to Date.

A Diagnosis.

The scorching who thinks of nothing but his bicycle caught a cold which left him with a very sore throat. He decided to see a physician. "Well," said the doctor cheerily, "what seems to be the matter?" "I can't say exactly," was the reply in a heavy whisper. "But it feels and sounds as if I had a puncture in my inner tube."—New York World.

Too Much.

Anxious Mammo—Yes, Mr. Lakeside, that is I have three daughters who ought to be settled in life. It is Western friend of yours a marrying man? Mr. Lakeside of Chicago—Not to any great extent, mum. I'm afraid he wouldn't want to take more than one of 'em.—New York Weekly.

Prune Shape.

Stone a pound of prunes and boil with a little water, half an ounce of dissolved bicarbide and a tablespoonful of sugar. Put it into a shape and when cold turn it out. A mold with a false center answers best. Fill the center with good whipped cream.

## FLEET DESTROYED

Cervera Attempts to Escape From Santiago Harbor, His Fleet Destroyed and the Admiral Captured.

Gen. Shafter Has Granted a Twenty-Four Hours' Truce to Santiago—Charleston and Transports Arrive at Manila.

The secretary of the navy has received the following from Admiral Sampson:

The fleet under my command offers to the nation as a mark of July presents the destruction of the whole of Cervera's. No one escaped. It attempted to escape at 9:30 a. m. and at 2 p. m. the last, the Cristofol Colon, had run ashore sixty miles west of Santiago, and led down her colors. The Infanta Maria Teresa, the Oquendo and Vizcaya were forced ashore, burned and blown up within twenty miles of Santiago. The Furor and Pluton were destroyed within four miles of the port. Our loss is one killed and two wounded. The enemy's loss is probably several hundred from gun fire, explosions and drowning. There are about 1,300 prisoners, including Admiral Cervera. The man killed is George H. Ellis, chief yeoman of the Brooklyn.

McKinley to Sampson.

The following message was sent to Admiral Sampson today by the president:

Playa Del Este. You have the gratitude and congratulations of the whole American people. Convey to your noble officers and crews through whose valor new honors have been added to the Americans. You have the grateful thanks and appreciation of the nation. (Signed) William McKinley.

Shafter to Miles.

General Miles has received the following telegram from General Shafter:

"Headquarters of the Fifth army corps. We killed a Spanish general in the affair of Caney and a large number of officers and men are still unhurt. General Linares and his arm broken. My demand for the surrender of Santiago is still being considered by the Spanish authorities. Pando has arrived near the break of the railroad with his advance. I think he will be stopped." Also the following from Assistant Adjutant General Wagner same place and time: "Pando is six miles north with 5,000 men. Garcia opposes him with 3,000. Lawton will support Garcia and prevent a junction."

Miles to Shafter.

General Miles sent the following dispatch to General Shafter before the news of the destruction of the fleet:

Accept my hearty congratulations for the record made of the magnificent fortitude, gallantry and the sacrifices in the desperate fighting of the troops before Santiago. I realize the hardships, difficulties and sufferings and am proud that amid those terrible scenes the troops have illustrated such fearless and patriotic devotion to the welfare of our country and flag. Whatever results are to follow their unsurpassed deeds of valor, the past is already a gratifying chapter in our history. I expect to be with you within one week with strong reinforcements.

Shafter's Reply.

To Major-General Nelson A. Miles, Washington: "I thank you in the name of the gallant men I have the honor to command for the splendid tribute of praise which you have accorded them. They have themselves American soldiers always. My telegram will be published at the heads of the regiments in the morning. I feel I am master of the situation and can hold the enemy any length of time. I am delighted to know you are coming so that you may see for yourself the obstacles which this army had to overcome. My only regret is the great number of gallant souls who have given their lives for our country's name."

Secretary Long says that Watson's fleet would be sent to the Spanish coast immediately.

A Trick of the Trade.

"I wrote in a mill down east during the civil war, and on each government blanket we turned out there was a net profit of \$1. How well I remember the busy and amusing scenes of the weighing of the blankets. The contract required each to pull 34 pounds, but that truly was an extra heavy one that pulled 3 pounds. Near by, however, would stand our ingenious proprietor, a cord in his hand, connecting above the scales, and on the weigher's announcement of the blanket's weight—2 pounds or so—the cord would be jerked, and sprays of water fine as a needle's point would descend until the required contract weight was registered. Then on top of the first one another blanket would be laid. 'Six pounds,' the weigher would yell out as the combined weight of the two. 'Turn on the hose,' our proprietor would say, with a loud laugh. 'Seven' the weigher would bawl in a minute, and on would go a third blanket for like treatment. In manufacturing, as in science, the speaker concluded, 'there are still vast fields for research, and I believe the time will come, though I may not live to see it, when out of dirt and water alone a presentable piece of goods will be made.'—Philadelphia Record.

When the Peas Grow.

The peas are a near relative of the hickory nut. It does not thrive in the lands that the hickory nut will, but the hickory nut will grow with wheat in the peas will. The same of the peas is the low, rich bottom land that is along the Wabash, Mississippi, and Big Bend rivers, while the wheat grows equally as well in the Territory and in the best wheated parts of Texas.

In eastern Australia 100,000,000 sheep now find sustenance in a region which 30 years ago was a sandy desert. The sheep gradually trampled the soil into firmness, so that it now grows a dense mass of vegetation.

The British museum library has complete editions of Shakespeare's works in 14 foreign languages.

## The Month.

The Russian calendar is full of saintly days and of holidays of every kind, and Ivan would sooner see his hay or his oats rot upon the ground than do a stroke of work upon any day which offers the smallest canonical excuse for remaining idle. Then there is the "drink." This is the darling vice of the country and the real cause of the poverty of the peasant classes and of half the misery that exists throughout the land.

The fields remain half cultivated because Ivan cannot spare the time to go out to work, and his really exemplary wife cannot do it all, though she does her best, because of the small children at home. As for Ivan himself, he is the kahak, or drinking shop, and can be expected to tear himself away from any prolonged period, for all his friends are there, and why should he be the exception?

If any money comes in by the sale of hay, or oats, or milk, or anything else, the monopolist who keeps the large drinking shop knows well enough what becomes of it; so perhaps does Ivan, but it is quite certain that the patient, hardworking Macha, his wife, and the small children see nothing of it. They have their lamp of black bread for dinner, and perhaps a particle of the same is left over for supper, and that is good enough for them. Ivan lives a vodka chiefly and leaves most of the bread for his family, but occasionally he indulges in a wooden bowl of shchi, which is a kind of cabbage soup, or boys with a trifle of salted butter. He is no great eater—Chamberlain's meal.

Har Complexion.

Made up complexions are on the increase in New York. The fashionable or would be fashionable New Yorker who does not today make up a little is a rare bird. A dab of rouge for evening has never been considered criminal by her, but she now uses it for daytime as well. As always happens when a habit becomes more universal, much of the present make up is very badly done. The few who do it as a rule, artistically, but the many lay it on with a heavy hand. Without wishing to go into the ethics of make up it is safe to say this—the fact that so much of it is done badly is one reason why we object to the increase.

One must always have a smacking appreciation of the story of the father who when told that his daughter used rouge called her to him and asked if it were true.

"It is," replied the girl.

"For heaven's sake," said the father, "go straight up stairs and wash it off."

The girl did so and returned to her father, who gave one glance at her colorless cheeks.

"For heaven's sake," he cried, "go straight up stairs and put it on again."

—Exchange.

The Old Lady's Discovery.

The Philadelphia Record tells the story of the late President William H. Allen of Girard college. On one occasion a business matter called Mr. Allen to a small town in the central part of the state. While sitting in the parlor of the country hotel in the evening after transacting his business he was taken in hand by the wife of the proprietor, who was extremely inquisitive and wanted to know all about his private affairs. Mr. Allen took it all in good part and for a time was rather amused. Finally she asked, "Have you got much of a family?"

"Oh, yes," said he, and he smiled at his mind reverted to his household of pupils.

"How many children?" she persisted.

"Well," said Mr. Allen, with great earnestness, "I have 500 and all boys." The good old lady was speechless for a moment. Then she arose and hurrying to the door called to her husband, "Oh, John! Come in here! We've got Brigham Young stoppin' with us!"

A London Lad's Prayer.

W. Pett Ridge, the London writer, makes a London boy in one of his stories offer the following rather quaint prayer: "Lord, wilt thou bestow wisdom on me to make me grow strong and tall and with plenty to say for myself, and wilt thou do this as soon as thou canst find time, so's to save me expense and waste of money that might be used in other ways—say for a cricket bat, believe me, Lord, thy obedient servant, A. Martin."

He rose. He was half way into his fine flannel bed gown, when an important idea occurred to him, and he took down again quickly.

"Shall I be mentioned," he whispered, "Elfred Martin of 25 Grosvenor street, just over Surrey side of South Ark bridge?"

POLITICAL QUIPS.

Some politicians begin at the bottom and work down.—Chicago News.

The creature known as a sea slug has no heart, no lungs, no brain, no nervous system, no organs of mouth and vision. Was an outfit for politicians.—Boston Transcript.

When the Peas Grow.

The peas are a near relative of the hickory nut. It does not thrive in the lands that the hickory nut will, but the hickory nut will grow with wheat in the peas will. The same of the peas is the low, rich bottom land that is along the Wabash, Mississippi, and Big Bend rivers, while the wheat grows equally as well in the Territory and in the best wheated parts of Texas.

In eastern Australia 100,000,000 sheep now find sustenance in a region which 30 years ago was a sandy desert. The sheep gradually trampled the soil into firmness, so that it now grows a dense mass of vegetation.

# JOHN ARTHUR'S WARD; OR, THE DETECTIVE'S DAUGHTER.

BY THE AUTHOR OF

"A WOMAN'S CRIME," "THE MISSING DIAMOND,"  
ETC., ETC.

She drew a low seat to the side of the  
lady, and, looking her full in the  
face, spoke in a voice low, intense, full  
of purpose.

"Auntie, it is time you told me more  
of your mother. You have evaded my  
question, but I am ever to know aught of  
my dear mother's history. I intend to  
hear it from your lips to-day."

"Surprise for a time held the old woman  
speechless; a look of sorrow and affection  
gave the querulousness out of her face,  
and she said:

"What! your child?" she said,  
wonderingly. "Do you want to make  
me tell you more of your mother, and  
know you are not entirely? Don't you know,  
dear, how she swore that the day I told  
you these things, he would forbid you to  
ask me; and if you disobeyed, take  
you away where I could not even hear of  
you?"

"Tears were in Hagar's eyes, and she  
said, with a quivering lip, imploringly:  
"Don't touch your old nurse, dearie;  
don't. I can't tell you these things now,  
and they could not make you any hap-  
pier child. Wait a little; the time will  
come."

"So will old age, auntie; and death,  
and all the knowledge we want. I sup-  
pose you are not entirely? Don't you know,  
dear, how she swore that the day I told  
you these things, he would forbid you to  
ask me; and if you disobeyed, take  
you away where I could not even hear of  
you?"

"Hagar looked at the girl earnestly for  
a moment, and then said, quietly:  
"Go on, then, dearie."

"First," pursued Madeline, "my  
father dislikes me very much; is this the  
truth?" Hagar nodded assent.

"He dislikes you, because you were al-  
ways good to me?" Here she paused, and  
Hagar again nodded.

"Because you were attached to my  
mother?" Again she paused, and again  
the old woman bowed assent.

"And because—the girl fixed the eyes  
of the old woman, and said, "because  
you were too familiar with my mother's  
past, and his, and knew too well the  
secret of his hatred of me?"

"Hagar sat silent and motionless, but  
Madeline, who had read her answer in the  
troubled face, continued, "Very  
good. I knew all this before, and I'll  
tell you what else I know. I know why  
Mr. John Arthur hates me."

"Hagar opened her mouth and shut it  
again quickly.

"He hates me," pursued Madeline, "be-  
cause my mother let him know his fortune so  
early up that he can only use it; never  
doubt of it. And at his death it re-  
verts to me."

"Hagar still looked her amazement, and  
Madeline condensed the remainder of her  
force into one telling shot.

"If I would be kind enough to die he  
would consider it a great favor. But as  
I evidently intend to live long, he desires  
of course, to see me happy. Therefore  
he has ingrained me in marriage to Amos  
Adams for the splendid consideration of  
a few thousand dollars, and the promise  
of a few thousand more if I die young."

"Still the bewildered look rested upon  
the old woman's face, and still she gazed  
at the young girl before her. Suddenly  
she leaped forward and taking the fair  
head between two trembling hands,  
gazed long at her. As if satisfied at last  
with her scrutiny, she drew a deep, sigh-  
ing breath, and leaned back in her chair.

"It's true," gasped Hagar; "it's too  
true! She has found it out, and my lit-  
tle girl has gone away, has gone away—  
has gone away!"

"Baby Madeline is become a woman,  
and has never a coward in all the race,  
and a Payne never forgave! It has come  
at last," she said, "and now, what  
will she do?"

Lionel Payne had entered upon the  
study of law, but circumstances threw  
in the way of his certain studies that had  
long been puzzling the heads of the fore-  
most detectives, and the young law  
student discovered in himself not only a  
marked taste for the study of mysteries,  
but a talent that was remarkable. So  
he gave up his law studies to become a  
detective. He rose rapidly in his new  
profession, giving all the strength of his  
splendid ability to the study of intricate  
and difficult cases, and became known  
among detectives, and dreaded among  
criminals, as "Payne, the Expert."

He had lived two happy years with his  
young wife, and been six months the  
proud father of baby Madeline, when he  
fell a victim to his dangerous pursuit,  
shot dead by a bullet from the hand of a  
fleeing assassin.

John Arthur had been a fellow law  
student with Lionel Payne, and he had  
followed the career of the young expert  
with curious interest, being, as much as  
was possible to his selfish nature, a friend  
and admirer of the rising young detec-  
tive. And Lionel Payne, open and man-  
ly himself, and seeing no trace of the  
serpent in the seeming disinterestedness  
of Arthur, introduced him proudly into  
his happy home. Arthur was struck by  
the beauty of the young wife, and be-  
came a frequent and welcome visitor.

One day there came to the office where  
John Arthur earned his bread reluctantly,  
as a salaried clerk, the uncle of  
Madeline Payne. He had come to make  
a will, in which he left all his posses-  
sions to his beloved niece, Madeline, and  
her heirs forever after. This was several  
months before the sudden death of  
Lionel Payne.

Ten months after she became a widow,  
Madeline's uncle died. Left alone with  
her little child, and with no resources  
but her own efforts, Madeline's mother  
struggled on, ever the object of the kind  
watchfulness and unobtrusive care of  
John Arthur, who professed to adore the  
child for the sake of the father, and  
through the baby Madeline, gradually  
won his way into the mother's esteem.

Payne was deeply grateful, and her  
mother's heart was touched by the devo-  
tion of Arthur to her little child. So it  
came about that, after a time, she gave  
him her hand, and all of her heart that  
was not buried with Lionel. A little  
later she learned that her uncle was  
dead, and she became mistress of a hand-  
some fortune.

Soon came the knowledge that her  
husband's heart was not all gold, and  
the suspicion, as well, that her uncle's  
will and its purport had long been a  
secret to him. But partly from force of  
the matter, and partly because her  
quite hardened John Arthur kept up his  
face of affection for the child, and  
while his wife awoke to a knowledge of  
many of his short-comings, she always  
believed in his love for her little one.

The two elements that were strongest  
in the nature of John Arthur were  
selfishness and pride. From his youth  
up his idols had been gold and self.  
Born into the world minus that "golden  
spoon" for which he sighed in youth,  
and schemed in later years, he had ever  
felt towards said world a half-fledged  
envy. As he reached the age of man-  
hood, his young sister was formally  
adopted by the only surviving relatives  
of the two; and becoming in due course  
of time and nature sole possessor of a  
very nice little fortune, afterwards held  
her head very high. Later, in consequence  
of some little indiscretions on her  
part, the nature of John Arthur was set  
free in the world—the result of the popular  
superstition held by him that "the world  
owed him a living"—she held herself  
aloof from and ignored him completely.

By degrees, Mrs. Arthur's eyes became  
opened to the true character of the man  
she had married. Moments she had of  
doubting and then of fearing that she  
wronged him too deeply, for her nature  
was a just one. It was in one of these  
latter moods that she made her will, but  
she had become aware that even his  
love for her little girl was only a  
well acted lie; believing her secret  
brother at the time when he made sure  
that, at his death, her darling  
should be supplied with all that money  
could give. She had long been in the  
fatal toils of that dread destroyer, heart  
disease, and suddenly, before she had  
found opportunity for securing her little  
daughter further, she had been taken.

To realize it was needful to do, she was  
seized with a paroxysm that snapped the  
frail cord of life.

A short time before her death, she had  
given into the keeping of old Hagar, a  
package, to be delivered to little Madeline  
when she should become a woman, and  
she expressed a wish that, should John  
Arthur prove a kind guardian meanwhile  
she would burn the journal it contained,  
unread.

(To be continued.)

One Artistic Temperament.

When a handsome man enlists the  
women all say, "Too bad," but they  
watch a lonely man go to war without  
a murmur.—Somerville Journal.

Study and His Poems.

Sir Charles Gavan Duffy relates that  
he once had put into his hands by a  
hostess a volume containing some of his  
own poems and was asked for his opin-  
ion of them.

"Deadly driven," replied the modest  
Sir Charles.

His hostess flushed. "I don't mind  
your laughing at me," she said, "but  
pray don't laugh at verses which came  
to me from the very heart of my hus-  
band when we first knew each other  
and which I will treasure to my dying  
day."

Noble Girl.

"Maud is so patriotic."  
"Is she?"  
"Yes. She's going to make a flag pil-  
low and stuff it with gun cotton."—  
Chicago Record.

## BLACKPOOL GAYETY.

STRIKING SCENES AT AN ENGLISH  
CONY ISLAND.

The Summer Paradise of the Cotton Spin-  
ners of Lancashire—Jolly, Free and Easy  
Crowds and the Amusements in Which  
They Indulge.

There are some mistaken ideas about  
the solemnity of British crowds as con-  
trasted with the gayety of French gather-  
ings. People think the English do not  
know what to do with themselves on a  
holiday and that they get drunk from  
sheer ennui. Those who think this have  
never lived in the cotton manufacturing  
districts of Lancashire and still less have  
they been to Blackpool, the Cony Island  
of every factory hand from Accrington  
to Blackburn, for even to be in this delect-  
able spot is to be happy, apart from any  
amusement offered there. Every factory  
town gives its hands a vacation of a week  
in the season, and they leave their dwell-  
ings to be a Blackpool, and the factory  
people are left in town—man, woman or  
child—save the sick or bedridden. Each  
town must choose a different week for its  
holiday, for Blackpool, though quite a  
large place, could not contain all the  
hordes that descend upon it, and it would  
be impossible to get a couple to go to  
another place for their outing.

For days beforehand the "lasses" are  
seen on the street, their heads bristling  
with crimping pins or curl papers, pre-  
paring the marvelous holiday bang which  
sticks out indefinitely in front, a veritable  
haystack. The shawl covers the head  
and the working dress is so neatly cast aside,  
and in its place is worn a hat unlike any-  
thing ever seen by American eyes. Mon-  
strous in shape and huge in size is this hat  
and covered with bows of ribbon startling  
in color. Ad feathers and flowers galore,  
and you have a structure which merits a  
holiday.

At this time of general exodus trains  
start at 2 and 4 o'clock in the morning,  
filled with joyful, noisy, singing people.  
They seem never to stop eating, drinking  
and singing, and they keep it up during  
the entire week.

Blackpool is an elongated town, stretch-  
ed out three miles along the coast, and en-  
tirely composed of lodging houses, hotels  
and "pubs"—myriads of "pubs," every  
other house being of this description,  
and each and all are jammed with people.  
The lodging houses are jammed, too, the  
saying being that as soon as the gates  
out of a bed another is ready to occupy it.  
For what use is a bed to one, after all,  
when one isn't in it? It would be snobbish  
to wish to retain it.

In Blackpool there are no toboggan  
slides or other such manifold shows as we  
get up to tinkle the fancy of our Cony  
Island. Simple and sufficient suffice  
the cheerful Lancashire lad and his broad  
faced, buxom lass. Chief among these is  
bathing or "padding." And to unwonted  
American eyes the bathing beach is a  
strange sight. The men and women bathe  
on different parts of the beach, the men  
swimming consists merely of "tights," while  
that worn by the women is of some light  
cotton material, generally pink in color, a  
blouse cut low in the neck, with short  
sleeves and drawers to the knee—no stock-  
ings, no skirt. Those who have these cos-  
tumes are considered quite aristocratic for  
the time being. Simple and sufficient suffice  
the cheerful Lancashire lad and his broad  
faced, buxom lass. Chief among these is  
bathing or "padding." And to unwonted  
American eyes the bathing beach is a  
strange sight. The men and women bathe  
on different parts of the beach, the men  
swimming consists merely of "tights," while  
that worn by the women is of some light  
cotton material, generally pink in color, a  
blouse cut low in the neck, with short  
sleeves and drawers to the knee—no stock-  
ings, no skirt. Those who have these cos-  
tumes are considered quite aristocratic for  
the time being. Simple and sufficient suffice  
the cheerful Lancashire lad and his broad  
faced, buxom lass. Chief among these is  
bathing or "padding." And to unwonted  
American eyes the bathing beach is a  
strange sight. The men and women bathe  
on different parts of the beach, the men  
swimming consists merely of "tights," while  
that worn by the women is of some light  
cotton material, generally pink in color, a  
blouse cut low in the neck, with short  
sleeves and drawers to the knee—no stock-

# W. W. Bole,

## Drugist and Stationer

### Drugs

Drugs, like other merchandise, are of various qualities and liable to adulteration. When you buy flour or tea you choose the quality and pay the price, depending largely on your own knowledge of these commodities and the integrity of the merchant. When you buy DRUGS you only want one quality and that the BEST. If seventeen years experience in handling drugs is worth anything it is at your service. We are in a position to know if drugs are pure, and reject them. That is our business. We would like you to bear this in mind when making out your shopping list and make a separate one for your drugs. We pay special attention to quality of Saltpeter, Sulphur, Epsom Salts, Glauber Salts, Bicarbonate Soda, Powdered Borax, Powdered Alum, and all the commoner drugs, and will quote specially low prices on quantities. Our dispensing department is in competent hands. Physicians' and family prescriptions carefully prepared. All the popular patent medicines kept in stock.

## Stationery

We aim to keep our stock complete in every line. We are clearing out wall paper at your own prices.

## The Moose Jaw Times.

FRIDAY, JULY 15, 1898.

A score or so have responded to our appeal in last week's issue, and have, as requested, called with their statements and asked to have them receipted in full. All those who have been kind enough to do so have our many thanks. But as yet we have not heard from the great majority. This should not be so. Those who are in arrears should remember that "it takes money to make the mare go"—a fact which every Nor'-wester is well aware of. We will expect you to call during the coming week, and will be "at home" every day (except Sunday) from 8 a.m. to 10 p.m. If you are living at a distance and cannot call, a registered letter, a post-office order, or money order will be quite acceptable. Remember we need your assistance.

THE TIMES PRINTING CO.

## LOCAL AND GENERAL NEWS.

Straw hats, Robinson & Hamilton.

H. Hutchinson, of Swift Current, was in town this week on a holiday.

Engineer John McNeil has returned from the west and resumed his run on this division.

Fred. Walsh, who has been confined to his bed for some months with fever, is now convalescent.

A. T. Condon, General Agent for the North American Life, left this week for the west and will spend a month among the ranchers.

Mrs. Bell, formerly of Qu'Appelle, but now of Roseland, B. C., spent Tuesday in town as the guest of Mrs. Angus McKay, while en route home after spending several months in the east.

Next Sunday evening in the Methodist church the subject of sermon will be, "Wrong Ideas of Christian Life." Miss Kemp, of Brighton, Ont., will give a vocal solo. All are cordially invited.

W. H. Cathcart, a prominent farmer of this district, has about recovered from the bad kick he received in the abdomen from a horse last winter, which confined him to the house for some months.

A typographical error crept into our issue last week. In giving the quantity of twine sold by J. H. Bunnell we stated the total to be "25,000" pounds, whereas it should have been "45,000" pounds.

Last Sunday's rain storm was not very widespread, the heaviest of it having fallen in town. The Buffalo Lake settlement just got enough to lay the dust, while only a gentle shower fell to the south. The rain was accompanied by hail which did considerable damage to the crop of Robt. Riddell a few miles north-west of town, but fortunately he was the only one, as far as we have heard, who suffered to any extent. A little hail also fell in town, but nothing to speak of.

On Tuesday afternoon the C.P.R. company were nearly being saved the trouble of moving the old depot to the freight shed site, it having narrowly escaped the fate of the dining hall. A stray spark from a passing engine is supposed to have lodged on the roof and started a fire. At any rate the fire had gained a nice little start in the attic, but it was noticed in time and the prompt application of a few buckets of water soon quenched it. The workshop whistle sounded the alarm but owing to the excessive heat our efficient fire brigade did not respond. Had the fire got beyond control Manitoba street would have had a narrow escape as the wind was blowing directly from the south.

Summer coats, Robinson & Hamilton.

The wife and family of Engineer D. Moore left last evening to visit friends at Broadview.

Lord and Lady Aberdeen passed through yesterday morning en route to British Columbia.

Several visitors to the Industrial returned yesterday and to-day and report having had a splendid time.

Klondyke prices are all right in Klondyke, but they don't go in Moose Jaw since we opened up. J. A. McLean—Advt.

Mrs. Wm. Duncan, of Regina, a sister to Mrs. L. H. McDonald, stopped over here on Tuesday, while en route to visit friends at Medicine Hat.

Alex. Zess expects his two carloads of cultivators to arrive at the beginning of next week. Hold your orders until you see them work. ALEX. ZESS—Advt.

J. L. Oldridge de lay Hay, of Buffalo Lake, has this week received from the Bishop of Qu'Appelle the formal appointment and license to be a Lay Reader in this diocese.

Miss Marlatt and a lady friend, Miss Saywell, who has been visiting here the past two weeks, left this week for Winnipeg to take in the Industrial and spend a few days with acquaintances.

About fifty laborers arrived from the east this week to work in the Parkberg sand pit. The men are paid 70c. a car, and as a man can load two cars a day the wages will average about \$1.40.

Mrs. Jas. Miller, wife of section foreman Jas. Miller, of Regina, arrived on Tuesday morning accompanied by her son Walter, to spend a couple of weeks as the guest of her daughter-in-law, Mrs. Thos. Miller.

Mr. Crozier, proprietor of the Queen's Hotel, Orangeville, Ont., was in town several days this week as the guest of an old friend, Capt. Smith. The two left on Tuesday to take in the Winnipeg Industrial, after which Mr. Crozier will continue his journey home.

Kelsey Watson was taken to the hospital some months ago and who was not expected to live, returned last Saturday completely cured, although a little weak; but he will soon regain his strength under the influence of the health-building atmosphere of this district.

If THE TIMES cannot boast of a neantire paid in advance subscription list, it at least feels proud this week over having one subscriber paid in advance until the commencement of the next century. Dan. Gilmour, of Buffalo Lake, has the honor of being the first on our books entitled to have opposite his name "Jan. 1st, 1900." May his tribe increase.

The Brandon W.C.T.U. will cater to the public during the fair. Hot meals and lunches will be served in the market place and refreshments on the grounds. Beds will be furnished in the Y.M.C.A. hall for men. Gospel Temperance meetings will be conducted in "Society Row."

Wednesday's Atlantic Express was delayed two hours by an accident which occurred four miles west of Parkberg at 10:45 that morning, when four cars of a freight train in charge of Conductor Battell and Engineer Wallace left the track and two of them were dethed. No one was hurt. The cause of the accident is a mystery as the cars were in the centre of the train.

This week we have the pleasure of thanking "The Leader," Regina, for the following pretty compliment:—"The Moose Jaw Times marks the commencement of its third year under the management of Mr. Thos. Miller by donning a complete new dress and making other conspicuous improvements which its readers cannot fail to appreciate. THE TIMES fills its field and purpose—such being the field and purpose of a local newspaper—perhaps a little better than any other journal in the Territories, and the prosperity which the appearance of the paper betokens is an encouragement to the enterprise of a painstaking and rapidly improving young Editor and Manager."

**BIRTHS.**  
COOKE.—On Wednesday, July 13th, to the wife of E. H. Cooke, a daughter.  
GRIFFITHS.—On Thursday, July 7th, to the wife of Isaac Griffiths, a daughter.

**DEATHS.**  
JACKSON.—On Saturday, July 9th, Myrtle, daughter of Mr. and Mrs. J. Jackson. Aged 4 years and 6 months.

Miss McLean leaves to-morrow to visit her mother in P.E.I.

Car load of flour just arrived. Prices out of sight. J. A. McLean. Advt.

The majority of the wheat crops in this district are now fairly well headed out.

Mrs. W. W. Bole and family left on Tuesday afternoon to visit friends at the Capital.

Mrs. Vrooman, wife of our new Methodist minister, is not expected to arrive until August.

Mrs. C. A. W. Stunt left yesterday evening to visit her parents at Whitecourt for a fortnight.

"Fighting Joe, Martin" was elected in Vancouver. For further particulars of the B.C. elections see next page.

The wife and family of Mayor Bogue returned from Victoria Saturday evening last after spending a pleasant month with friends.

Low prices and good quality are our hobby—especially in flour. One car just arrived and going at car load prices. J. A. McLean—Advt.

A case of diphtheria has developed in town, but the dwelling has been quarantined and every precaution taken to keep the disease from spreading.

W. C. Sanders left this week on a holiday trip to Ontario points and to visit the Winnipeg Industrial by the way. He will be absent about a month.

Rev. J. C. Cameron, accompanied by his wife and son, left on Monday, via prairie schooner, for Sinaluta, where they will spend a month's holiday with friends.

Mrs. Cryderman, of Swift Current, wife of station agent Cryderman, who has been the guest of Mrs. John Bellamy for a fortnight, left last Saturday to visit friends at Moonosin.

Edmonton Bulletin: Rev. T. Ferrier arrived on Friday's train accompanied by his family. At present the rev. gentleman and his family are occupying a tent while the parsonage is being refitted.

The last Gazette contains the appointment of R. B. Gordon, of Regina, to the position of Chief License Inspector. A. Patterson, of Swift Current, is among the newly appointed Justices of the Peace.

Rev. G. C. Hill, Incumbent at Boissevain, will conduct the services in St. John's church next Sabbath, and will remain in town a few days as the guest of R. S. Barrow, manager of the Union Bank.

Services will be held at Barlee's Buffalo Lake, next Sunday afternoon at 3 o'clock, conducted by J. L. Oldridge de la Hey. Afterwards there will be a meeting concerning the new church of St. Columba.

Rev. A. Chivers, A.K.C. London University, Incumbent of Broadview, and Rev. G. P. Terry, L. Th., of Durham University, Incumbent of Oxbow, spent a few days in town this week as the guests of Rev. Wm. Watson.

Rev. Neil Gilmour, of the Crooked Lake Indian Agency, a son of H. C. Gilmour, of Buffalo Lake, will conduct the Presbyterian services in the Central hall next Sabbath. It is expected that the church will be re-opened on Sunday, July 24th.

The excessive heat of the first three days of this week was followed by cool weather and welcome showers yesterday. As will be seen by our meteorological report, Tuesday was the hottest day of the year, the thermometer registering 99 in the shade.

Last Sunday morning a new colored window to the memory of the late Dr. Burn, was dedicated in St. John's church by the late Incumbent, who, in a brief address, reviewed the salient points in the life of the late Bishop and of his friendship with him since 1884.

Robt. Green, weed inspector for the district extending from Balgonie to Pelican Lake, started on his official tour on Monday. He will visit the eastern part of the district first which will take about two week's time, after which he will make a tour of this district. All those concerned will please take notice and govern themselves accordingly.

Edmonton Bulletin: Jas. H. Ross, head of the public works department of the Territorial Government, and M. McCaulley, M.L.A., left on Saturday evening for Lesser Slave Lake to examine the new trail cut through from the Athabasca River to Slave Lake. They expect to be absent eight or ten days. This inspection is preliminary to arranging as to further improvements of the road.

The case against W. H. Cathcart, jr., charged with stealing goods from the home of Harvey Dillabough while he was visiting friends in Ontario last winter, was resumed on Saturday afternoon and resulted in the accused being dismissed on suspended sentence. C. H. Fielder, a Barnardo boy who was working for the father of the accused, and who was the principal witness against the defendant, was implicated in the crime and after the case was dismissed the Crown Prosecutor charged him with the offence and secured his conviction. Sentence was passed for \$5.00 and costs or one month with hard labor. He paid the fine.

## FAREWELL ADDRESSES.

Presentations to Rev. W. Watson, Incumbent of St. John's, Prior to His Departure.

Rev. Wm. Watson, who for the past four years has been Incumbent of St. John's church, leaves to-night to commence his duties as rector of Christ's church, St. Vincent, Minn., with charge of Grace church, Pembina, N. D., in the Diocese of Duluth. This is an important Parish, each town being about the size of Moose Jaw, and situated on the opposite sides of a river.

Mr. Watson came to Moose Jaw in 1894, from All Saints' Parish, Yorkshire, England, where a brother of the late Bishop Burn is rector. He was appointed lay reader to Rev. W. E. Brown and in September, 1894, was ordained Deacon of this Parish by the late Dr. Burn, and in April of the following year he was appointed Incumbent, which position was rendered vacant by the removal of Rev. W. E. Brown to St. Paul's, Regina. In December following he was raised to the Priesthood.

During Mr. Watson's sojourn in Moose Jaw he has made many friends throughout the district, who deeply regret that he has thought it expedient to change his field of labor. Ample testimony is borne to this fact by two interesting social events which took place this week.

On Monday, July 11, St. John the Baptist's Chapter of the Brotherhood of St. Andrew met at a special meeting to present a farewell address to the Rev. W. Watson. After the opening office, Mr. H. Jaggar, Director, read the following address:

Reverend and Dear Sir:—We, the Members of Moose Jaw Chapter No. 211, Brotherhood of St. Andrew, take this opportunity of expressing our regret that you have found it necessary to sever the ties which during the past four years have bound us together as pastor and flock.

The record of your work during the time of your Incumbency here bears testimony to the zeal with which you have labored in the Master's service. You have proved yourself to be a loyal and devoted Priest of our church and we feel sure your labors have not been in vain. The result cannot be computed by any human measurement, but God is witness that you have earnestly striven to place the Parish in a better spiritual position and have endeavored to do your duty without fear or favor.

We have no doubt that aided by the experience which you have gained during the time which you have ministered to the spiritual necessities of our people here, you will be able to do even a greater work for God and His church in the new field to which you have been called to labor.

We earnestly pray that Almighty God will go with you and bless you and make you strong laborer for him in the winning of souls and the building up of His church.

To him who is ever ready to hear and willing to bless, we commend yourself, your wife and family.

Yours sincerely in the faith,  
HAROLD JAGGAR,  
Director.

A. R. Lowe, Sec'y-Treas.  
On behalf of the Members.  
Moose Jaw, Assa., July 11, 1898.

The Rev. W. Watson responded in feeling terms, thanking the Brotherhood for the unexpected expression of good will, and giving utterance to his thankfulness that the Chapter should have been formed during his Incumbency.

The Rev. G. P. Terry, of Oxbow, and other members also addressed the meeting, which adjourned for a social and musical evening at the residence of Mrs. C. Palfrey.

On Wednesday a social evening, attended by the whole of the congregation and communicants of St. John the Baptist's church was held at the residence of Mr. R. Emerson. Music, games, ice cream and light refreshments having been disposed of, Mr. J. A. Creagh, in the name of the congregation, read the following address and presented the Rev. W. Watson with a handsome purse of money, as a token of their appreciation of his faithful services:

To Rev. Wm. Watson.  
Reverend and Dear Sir:—On behalf of the congregations of the church of St. John the Baptist, Moose Jaw, and its outstations, we desire to take this opportunity of tendering you our sincere good wishes on the occasion of your removal from this parish, in which you have faithfully ministered during the past four years. It would require too much space (and we know you would not wish it) for us to enter into details of the progress made in the parish during your short ministry, but we feel it a duty and a pleasure to call to mind the following facts. One evidence of the spiritual growth in the parish is surely found in the large number of persons confirmed and that many of these were adults; also in the increase of communions made. The debt on the parish church has been considerably reduced, and the outstations have received a larger share of attention, whilst the Buffalo Lake district has given proof of the increased interest in church matters by raising funds for the purpose of building the new church of St. Columba, which will be a monument to the zeal with which you labored in that district equally with the other outstations. The result of your labors cannot be estimated, but we hope and pray that the work done by you will grow and bear fruit abundantly in God's own time. The accompanying purse represents in a small degree only our appreciation of the love, earnestness and zeal with which you have labored amongst us in the services of our Lord and Master, and we beg you to accept it together with our hearty good wishes for your future welfare. And we shall pray our Heavenly Father to bless you in the new field to which you have been called to labor, to grant you wisdom, strength and power to work for Him in the winning of souls and

TO BE  
**Smartly Dressed**  
Does not mean to be  
**Expensively Dressed**

A little money goes a long way where good taste and judgment is used. This store at all times stands ready to exemplify this fact as hundreds can testify. Do we count you among our patrons? If not kindly lay aside your prejudices, come in and look the store over, investigate the goods, view them in every light, and we are satisfied you will buy from us and save your money. This week we are using the knife and cutting prices right in two in some lines of clothing and boots and shoes having only certain sizes left. You can get lots of comfort out of a light coat and vest these days. We are showing a beautiful assortment of these goods from 90c. up as they are going fast. See our 90c. and 50c. men's shirts for this week only.

M. J. MacLEOD.

The Up-to-Date Clothier and Furnisher....

the building up of Christ's kingdom. And we desire to remember Mrs. Watson and your family with the hope that you will each and all be blessed with health, peace and happiness.

WM. THIELWALL,  
Vicar's Warden.  
J. L. O. DE LA HEY,  
Lay Reader.  
ELIZABETH WALLIS,  
President of Women's Guild.  
Moose Jaw, Assa., July 13, 1898.

The late Incumbent feelingly replied, expressing his astonishment and gratification at the unexpected gift and referred to his four years' social relationship with the institutions of Moose Jaw. He had been able to live on the best of terms with the members of other religious denominations and their ministers and although his principles were well known he did not think they respected one another any the less. He thanked them all heartily for their kindness and with many expressions of good will, kindly feeling and the singing of "God Save the Queen" and "Auld Lang Syne" the social broke up at a late hour.

## OUR REPRESENTATIVES.

The Moose Jaw District Well Represented at the Winnipeg Industrial.

The Winnipeg fair of 1898 opened on Monday and will be in full swing until to-morrow. Premier Greenway delivered the opening speech in the afternoon. The entries this year are more numerous in all departments than last year, horses and cattle excepted. As a whole the Fair promises to eclipse all previous efforts. The visitors began to arrive on Saturday, and their numbers have been augmented throughout the week. As usual Moose Jaw and district is well represented, about fifty or sixty of our townspeople and settlers attending, this number being a considerable increase over last year. The following are those who are attending as far as we have been able to ascertain: Messrs. Jno. A. McDonald, Hugh Ferguson, Alex. McLean, W. Hannah, jr., W. C. Sanders, Jno. Bunnell, J.P. Fowler and wife, Seymour Green, J. W. Robin, R. L. Slater and wife, Wm. Moffatt, Alex. Wilson (Pioneer), F. W. Green, J. Green, W. G. Bull, C. S. Smith, Harry Mitchell, A. Smith (C.P.R. Hotel), Jas. W. Smith, Capt. Smith, H. C. Gilmour, Neil Gilmour, W. M. Lambert and wife, R. E. Doran, Jno. Bellamy, Geo. Armstrong, C. Stevenson, Mrs. Tapley and daughter, Misses Cameron, Latham, Arnold, Clarke, Hannah, Laura Burnett, and Mesdames Withrow and Bates.

## METEOROLOGICAL.

Thermometrical Observations for Week Ending Thursday, July 14th.

Friday.....	Max. 85 Min. 40
Saturday.....	85 54
Sunday.....	90 54
Monday.....	99 50
Tuesday.....	99 58
Wednesday.....	89 72
Thursday.....	78 90

Rainfall 0.880 inches.

C. A. W. STUNT, Observer

## TO RENT!

A large room to let in the McLean Block. Apply to J. J. McLean.
